CANADA TO AID OF BRITAIN

Two Hundred Legionnaires In Mass Meeting Held At Grande Prairie On Sunday

Meeting Unanimously Passed Resolution Urging Formation Of A Peace River Unit—Veterans Declare Themselves In Favor Of Conscription—Major Wilson, Recruiting Officer, Addressed The Meeting—Drastic Penalties Against Sabotage Urged—D. W. Patterson, President Of Grande Prairie Branch Of Canadian Legion, Was In The Chair.

Two hundred Legionnaires met at a mass meeting held in the Memorial Hall, Grande Prairie, last Sunday to discuss the war situation and to decide on what action the Legion should take in order to give the utmost support to the Canadian government and to the Empire. D. W. Patterson, president of the local branch, who was in the chair, welcomed the visitors. John Redmond acted as secretary.

It is doubtful if there ever was a more representative body ever assembled in the entire Peace River. The following points were presented: Dawson Creek, Hythe, Beaver Lodge, Wembley, Clairmont, Sexsmith, Spirit River, Fairview, Berwyn, East of the Smoky, and High Prairie.

The Legionnaires were in a serious and determined mood. They came to the meeting to declare their sentiments and this they did in no uncertain terms, and that was to back.

First Grain For The M.P.H.A. Delivered At Beaver Lodge

Richard Fulton of Hazelton district (aged 70) delivered 50 bushels of No. 2 Northern wheat to the Alberta Pool elevator at Beaver Lodge on Wednesday, September 13, the return of an acre of grain to the Monksman Pass Highway Association under the grain acreage plan inaugurated last year.

This plan was agreed upon in order to pay off outstanding debts of the Association.

Prov. Bull Exchange Policy Date Has Been Extended

Farmers who plan on taking advantage of the Bull Exchange Policy established by the Provincial Livestock Branch, Edmonton, are advised that the date for receiving applications has been extended. It is important, however, that requests for purbed bulls under this policy be submitted as soon as possible. Application forms and full particulars may be obtained from W. S. Scarth, District Agricultural, Grande Prairie.

JACK McKEAGUE LEAVES TO ENTER UNIVERSITY

Jack McKeague, who was with Bell-Fleming Hardware for the past two years, recently left for Edmonton, where he will study medicine at the University of Alberta.

The trip was made with his parents, Dr. and Mrs. McKeague of Nanton, Alberta, who spent a week in Grande Prairie.

Drastic Penalties Against Acts Of Treason

First Recruits Left On Tuesday's Train To Be Attached Edmonton Unit

Test On Guardian Oil Well To Be Made Saturday, Sunday

John E. Morrow, representing Benedum and Trees, who are heavily interested financially in the "Pouce Coupe" oil field, arrived in Grande Prairie by plane on Wednesday from Calgary. After spending a short time in Grande Prairie he proceeded by plane to Dawson Creek, and from there by road to the Guardian Oil well.

Interviewed by The Herald-Tribune reporter, Mr. Morrow stated that equipment to test the well is on the way and that it was expected a test will be made Saturday or Sunday.

Asked for an opinion regarding prospects for a real flow of oil, Mr. Morrow would not commit himself. All he said was: "Of course we hope to be able to announce that we have oil."

WORK ON RADIO TELEPHONE STATION AT G. P. HAS CEASED

Owing to the men of the signal corps employed on installing the radio telephone station at Grande Prairie having been called to Edmonton on active war duty, work on the station has ceased. Local contractors have completed their work and part of the radio equipment has been installed. The signal corps men left on Tuesday's train.

Canada and the Empire one hundred per cent in the war with Germany.

The meeting went on record as favoring conscription.

The chairman called upon Major E. B. Wilson of Edmonton, who is recruiting in the Peace River country. Major Wilson stated at the outset of his remarks that he was fully aware of the desire of the people of the Peace River to have a unit of their own. He then went on to explain that the first contingent should be truly representative of the whole Dominion. Following that policy, the government had allotted certain specific units to the province of Alberta and insisted that these units honestly make representation possible.

Continuing, Major Wilson said that the Calgary Highlanders, some southern Alberta and the Edmonton Regiment are not allowed to recruit up to strength in the cities but must take on recruits from the various areas in the province so that the result will be two battalions of infantry with personnel from every part of the province; and in addition there will be a certain number of representatives from the various parts of the province in different arms and service, such as engineers, company detachments of the army service corps, signals and various medical units.

In conclusion, Major Wilson stated that the present quota from the Peace River (110) is absolutely without prejudice to the efforts of the district to have a subsequent active service unit, wholly recruited from the Peace River.

In speaking to the question of a Peace River unit, Jack McKenzie, zone representative, said that there was a strong movement in this country for a Peace River unit. He pledged the support of the Legion to the recruiting officers.

Steve Keay, president of the Spirit River branch, stated the feeling of his branch was for the formation of a Peace River unit.

Ed. Carney, president of the Sexsmith branch, said that his branch had gone on record as being in favor of a Peace River unit. He believed that a battalion could be recruited from a fine type of men whose identity should not be lost.

(Continued on Page Five)

Central Relief To Be Organized At Grande Prairie

It is proposed to organize a Central Relief Committee for Grande Prairie, to include all churches and organizations.

Mayor Lawlor explained that the reason for this is to prevent overlapping of efforts. Another reason for organizing the Central Relief Committee, explained His Worship, is that under such an organization a more accurate record can be kept.

Patrick Murphy (No. 16001) First Man Accepted For Training

Twenty-five years ago the first recruits left Grande Prairie for the Great War.

Now Canada is engaged in another war, supporting the mother country in another struggle against the same enemy—Germany.

On Tuesday the first recruits left Grande Prairie to be attached to the Edmonton Regiment. Patrick Murphy, number 16001, was the first man accepted and Elmer Connors was next. Both men are from Grande Prairie. The brothers Frederick H. Willis and W. C. Willis of Windsor Creek were third and fourth.

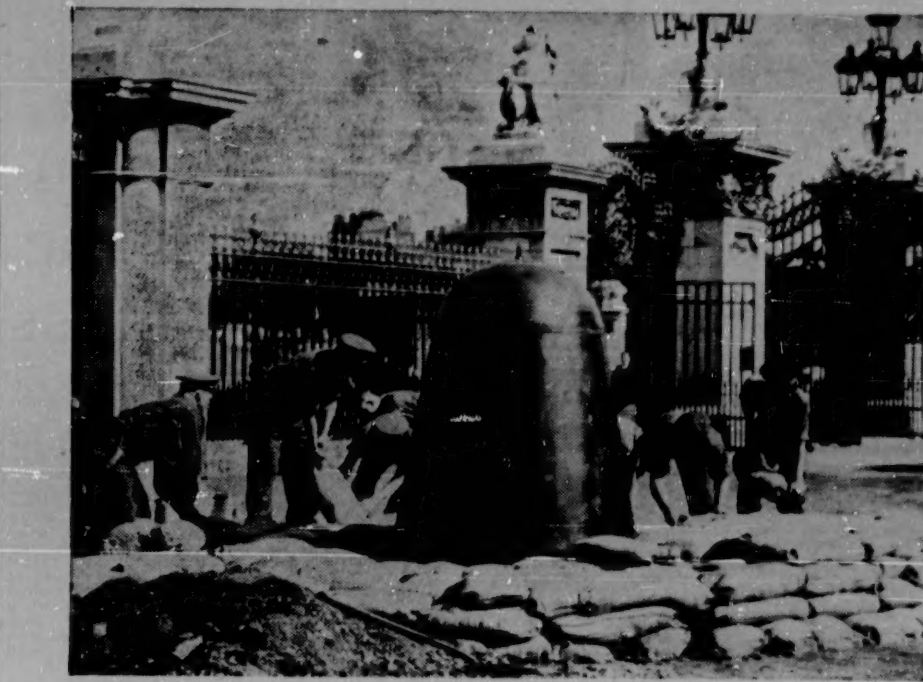

Interviewed by The Herald-Tribune reporter, the recruiting officer, Major E. B. Wilson, stated that recruiting here is progressing quite satisfactorily but owing to the fact that it was not possible at the time for the Military Board to handle more applicants only four were sent on Tuesday. He added that a goodly number would leave for Edmonton on Friday's train.

The Medical Board is composed of Dr. L. J. O'Brien, president; Dr. E. L. Little and Dr. A. M. Carlisle. The medical examination is now complete and only those perfectly fit are being passed.

Three signallers also left for Edmonton on the same train. They were I. Neary, H. Rasmussen and D. W. Mitchell.

HOOG PRICES ADVANCE

Three hogs brought \$7.00 on Saturday. This was an advance of 25 cents over the price paid three weeks previous. The hog shipment from this point was very light.

AIR RAID SHELTERS FOR SENTRY AT ROYAL PALACES
Workmen erecting an air raid shelter at Buckingham Palace for the sentry on guard at the main entrance to the palace. Similar shelters are being placed in front of every royal residence.

Sexsmith Branch of Legion All For Formation Of A Peace River Country Unit

Want R.C.M.P. Barracks Established At Sexsmith For Duration Of War—Six Comrades Offer Services To Handle Parties—Delightful Smoker Followed Business Meeting.

Sixty returned men attended a special meeting of the Sexsmith Branch of the Canadian Legion held on Friday night, September 8.

P. J. Carney was in the chair, while Comrade S. W. Smith looked after the secretarial work.

The members made it quite clear that they were all for having a Peace River unit.

Jack McKenzie, zone representative, in speaking to the question, referred to the outbreak of the Great War in 1914, when men from the Peace River had to go to Edmonton to find out whether they were fit to join the army. "My opinion is that units should be formed north and south of the Peace River. This is what the people want, whether it is possible I do not know."

Comrade McKenzie then read the following telegram which he had sent that day to the C.O.C.:

"Strong representation being made for the formation of a Peace River unit to be stationed at Sexsmith, Alberta. Legion Branches in area support idea. Recommend favorable consideration. Please wire possibilities."

The following is the complete list of enlistments at Grande Prairie up to Tuesday night, September 13:

Patrick Murphy, Grande Prairie.
Elmer Connors, Grande Prairie.
Frederick H. Willis, Windsor Creek.
W. C. Willis, Windsor Creek.
Lawrence J. Groulx, Grande Prairie.
William Rowland, Grande Prairie.
Russell Medeiros, Rio Grande.
James H. Holloway, Demmitt.
Cornelius B. Brekke, Grande Prairie.
James Rowland, Grande Prairie.
William Rempel, Grande Prairie.
James R. Stone, Blueberry Min.
Charles L. Weaver, Glen Leslie.
John M. Sinclair, Grande Prairie.
Charles E. Black, Grande Prairie.
James R. Madsen, Grande Prairie.
Howard L. Masse, Grande Prairie.
Michael S. Antkowiak, Grande Prairie.
Thos. Junior Connors, Grande Prairie.
W. J. Whitlock, Grande Prairie.
David R. Denard, Poplar Hill.
Thomas C. MacKenzie, Wembley.
George L. Powell, Grande Prairie.
James A. R. Devine, Demmitt.
Carroll M. Dana, Goodwin.
Michael S. Antkowiak, Grande Prairie.
Patrick J. Dwyer, Crooked Creek.
George E. Hansen, Smoky Mountain.

The first four went to Edmonton on Tuesday's train and the rest will leave for the Capital City either tomorrow (Friday) or next Tuesday. The recruiting officers left Thursday morning for Fairview.

Light Docket Before Sitting of District Court At G. P.

There was one court case on the docket before the sitting of the District Court held at Grande Prairie on Friday, presided over by His Honor Judge Matheson.

The rest of the time of the court was taken up in chambers work and dealing with applications for naturalization.

In the case of Edward Halwa vs. Charles Dworakowski, which was a claim for wages, the action was dismissed with costs. D. W. Patterson for the plaintiff and J. P. McIsaac, K.C., for the defendant.

Of the nine applications for naturalization four were approved.

Judge Matheson left on Tuesday for Peace River, where a heavy docket awaited him.

Important War Service Meeting At Town Hall On Friday Evening

TO THE CITIZENS OF THE TOWN OF GRANDE PRAIRIE:

Now that war has been declared, it behooves all citizens to get together and work together for the common good. The present struggle may be a long one and there will be plenty of opportunity for every person to do his or her bit for Canada and the Empire.

Word has been received from The Canadian Red Cross Society at Calgary that the provincial branch has been asked to make preparations for War Service. They have asked for our cooperation and support.

It is considered by many of our citizens that steps should be taken forthwith to reorganize the Grande Prairie District Central Relief Committee, which has done such excellent work in past years. In order to prevent any overlapping, it is felt that all war work, charitable and relief work should now be handled by one central organization. The question is to whether we shall have a central relief committee and a separate branch of the Canadian Red Cross Society at the same time, or whether we shall henceforth have only one organization under the Red Cross Society will be discussed.

In any event, no matter what the name of the organization may be, a strong active executive will be required.

With this in view, a public meeting will be called at the Town Hall, Friday evening, September 15, at 8 o'clock, to discuss reorganization.

All churches and other public bodies are requested to send representatives.

Canada expects every citizen to do his share in this time of national emergency, so turn out and show by your presence that you are willing to do yours.

T. W. LAWLER, Mayor.

P. R. Horticultural Association Hold Successful Meeting

J. A. Foote Of Sexsmith Re-elected President—Plans Laid For The Future—Slides To Be Used To Further Interest In The Growing Of Flowers—Meeting Held At The Home Of Mr. And Mrs. Tuck Of Pouce Coupe District, Whose Wagon Garden Was Admired By Visitors.

Election of officers and laying plans for the future was the principal business dealt with at a meeting of the Peace River Horticultural Association held at the home of Mr. and Mrs. S. Tuck in the Pouce Coupe area on Sunday afternoon.

The financial report for the year, which showed a slight balance on the credit side, was submitted by the secretary, John F. Moore of Beaver Lodge and approved.

The advantages of buying seeds, bulbs, plants, etc., through the association was stressed by the president, J. A. Foote, who was in the chair.

It was pointed out that any member desiring to purchase through the association will get a substantial reduction on the catalogue prices by getting in touch with his or her local secretary.

The Grande Prairie Association was represented by President Harry Newton and Mrs. Newton; Sexsmith by J. A. Foote, president, and Beaver Lodge Association by President Bert Little.

Regrets were expressed at the absence of Frank Sumner, formerly of Sexsmith, an untiring worker in the interests of the association, now living at Westlock.

It was decided to assist anyone in the Sudeten settlement in procuring perennial plants through Mrs. Tuck, who is president of the Women's Institute in her area.

In order to further interest in the growing of flowers, it was decided to take advantage of the offer of the British Columbia and Alberta governments for slides which will be shown throughout the Peace River on dates to be announced later.

Election of Officers

The last item on the agenda was the election of officers, which resulted as follows:

President—J. A. Foote, Sexsmith (re-elected).

Vice-President—L. C. Howard, Sexsmith.

Secretary—John F. Moore, Beaver Lodge.

The splendid garden of Mr. and Mrs. Tuck was greatly admired by the visitors.

A sumptuous lunch was served by Mrs. Tuck, assisted by Mrs. Crack.

List Of Men Who Were Recruited At Grande Prairie

The following is the complete list of enlistments at Grande Prairie up to Tuesday night, September 13:

Patrick Murphy, Grande Prairie.
Elmer Connors, Grande Prairie.
Frederick H. Willis, Windsor Creek.
W. C. Willis, Windsor Creek.
Lawrence J. Groulx, Grande Prairie.
William Rowland, Grande Prairie.
Russell Medeiros, Rio Grande.
James H. Holloway, Demmitt.
Cornelius B. Brekke, Grande Prairie.
James Rowland, Grande Prairie.
William Rempel, Grande Prairie.
James R. Stone, Blueberry Min.
Charles L. Weaver, Glen Leslie.
John M. Sinclair, Grande Prairie.
Charles E. Black, Grande Prairie.
James R. Madsen, Grande Prairie.
Howard L. Masse, Grande Prairie.
Michael S. Antkowiak, Grande Prairie.
Thos. Junior Connors, Grande Prairie.
W. J. Whitlock, Grande Prairie.
David R. Denard, Poplar Hill.
Thomas C. MacKenzie, Wembley.
George L. Powell, Grande Prairie.
James A. R. Devine, Demmitt.
Carroll M. Dana, Goodwin.
Michael S. Antkowiak, Grande Prairie.
Patrick J. Dwyer, Crooked Creek.
George E. Hansen, Smoky Mountain.

SOCIAL CREDIT MEETING

The regular meeting of the Grande Prairie Social Credit group will be held in the club rooms, Friday, at 8 o'clock. All members please attend.

Dominion Exercising Rights Casts Lot and Responsibility With Britain and France

Commons and Senate Approved The Government's Decision Almost Unanimously—Parliament Then Proceeded To Supply Sinews Of War

Canada's War Budget Seen At A Glance

OTTAWA, Sept. 13.—The House of Commons Tuesday night wrote the government's war tax proposals into law with a dispatch rarely seen in parliamentary proceedings. Here are the new war budget taxes at a glance:

An excess tax on profits of all companies, incorporated or not, based on a rate of 50 per cent of all excess over the average profits of the last four years, with an alternative graduated scale ranging from 10 per cent to 50 per cent on profits in excess of five per cent on capital used.

Individual income taxes increased by a surtax of 20 per cent on the normal tax paid, beginning with 1939 incomes.

Corporation income taxes are raised three per cent over present level—from 18 per cent to 21 per cent, and from 17 per cent to 20 per cent—on consolidated returns.

Excise duty on spirits increased by \$3 a proof gallon.

Beer taxed to an effective rate of about two cents on a quart bottle.

Excise duty on cigarettes increased by one dollar per 1,000.

Excise duty on tobacco increased by five cents per pound.

Excise tax on wines doubled.

Customs tariff on tea increased from five cents to ten cents a pound according to invoice prices.

Customs tariff on coffee increased by ten cents a pound under all tariffs.

BRITISH PRESS HAILS CANADA'S DECISION

MANCHESTER, Eng., Sept. 11.—Canada's declaration of war was hailed by the Manchester Guardian today.

"Whatever hopes Germany's leaders may have had," said the Guardian, "that a renewal of the terrible ordeal of war would find the British dominions, secure in their independence, apathetic about Britain's cause, regarding in their efforts of help, or even completely passive, are finally dispelled by Canada's declaration of war."

UNACCEPTED MEN SHOULD BE GIVEN LAPEL BUTTON SUGGESTS MAYOR LAWLER

Mayor Lawlor, himself a returned man, brought to the attention of the mass meeting of Legionnaires held in Memorial Hall, Grande Prairie, last Sunday that men who offer their services to the army or navy and who for some reason or other were turned down should be given a button in order to save them from suspicion and libel by those not acquainted with the facts of the case. The timely suggestion has been sent to the proper authorities.

Gravel To Be Laid On Highway North To Sexsmith And West To Wembley Says W.A. Fallow

Who Is On A Tour Of Inspection Of Highways In The Peace River—In An Interview With The Minister Of Public Works Said That Rock Crusher And Big Road Equipment Will Remain In The Country Until Graveling Program Is Completed—Strip Of Land South Side Of Wapiti Set Aside For Park Purposes.

W. A. Fallow, Provincial Minister of Public Works, accompanied by G. H. Monkman, Deputy Minister, and Edgar Robertson, Superintendent of Highway Maintenance, spent Wednesday in Grande Prairie and district, having arrived by plane from Edmonton in the morning.

Accompanied by A. H. McQuarrie, road superintendent, the party visited the gravel pit on the bank of the Wapiti River and inspected the gravel being laid on the highway.

The highway to the B.C. boundary line also was inspected.

Interviewed by The Herald-Tribune reporter, Mr. Fallow stated that the primary object of his trip was to look over the gravel pit now in operation at the Wapiti River and to find out if there were other gravel beds available that would lessen the cost of hauling as the graveling program proceeded.

The Minister further stated that the quality of the gravel at the Wapiti was the best in the province, but was a little coarse.

Reporter: "What is your gravel program for this year?"

Minister: "We hope to gravel north as far as Sexsmith and as far west as Wembley."

Mr. Fallow further stated that the rock crusher would remain in this district until the graveling work is completed.

Asked about this, the Minister replied that this had been done and he had left instructions with the ferryman to see that none of the trees are cut down.

Mr. Fallow further observed that the big road equipment will also be left in this area. In the opinion of

Dennys Law To Enter University Of Alberta Soon

Dennys Law, assistant clerk of the court at Grande Prairie, leaves shortly for Edmonton to take a four-year course in chemical engineering at the University of Alberta.

Dennys will be greatly missed in Grande Prairie athletic circles, where he has been prominent in hockey, tennis and other sports.

Asked by The Herald-Tribune reporter if he intended to try and catch a place on the University hockey and football teams, Dennys smiled and said that he did not know.

Mrs. Dorothy Odden, who has conducted a business college at Grande Prairie for some time, has been appointed assistant clerk.

IMPERIAL OIL WAREHOUSE IS BEING REMODELLED

The warehouse of the Imperial Oil Company at Grande Prairie is being remodelled. An electric pump for filling barrels takes the place of the hand pump and the building is being equipped with a modern electric lighting system. New scales will be added later. These improvements will bring the warehouse up to present-day standards.

J. J. Hollands of Edmonton has charge of the work. Joe Putters has the wiring contract.

EDMONTON, Sept. 13.—Cattle steady at firm prices. Hogs steady at \$8.25. Butchered-in hogs, but market unsettled with weaker undertone.

W.I. Child Welfare Clinic To Be Held Sept. 29 and 30

The annual W. I. Child Welfare Clinic will be held Friday and Saturday, September 29 and 30, weather permitting, in the basement hall at St. Paul's United Church, Grande Prairie.

All infants and pre-school children will be examined free of charge.

THE HERALD-TRIBUNE

Owned and published by J. B. Yule,
Geo. A. Duncan, James Duncan
and Arthur Jackson

Published every Thursday at Grande
Prairie, Alberta

The aim of the Herald-Tribune is to "cover" the local news field with fairness to all sections and parties; also to aid in the development of the Peace River Country and help make known this northern inland empire's many advantages as a home land. All news is printed without intentional distortion. The paper's opinions are expressed only in its editorial columns. Letters for publication are welcomed but should not be too lengthy nor only propaganda. A pen name may be used except when replying to a writer using his own name. Proper names must also be signed when using a pen name, not necessarily for publication but as evidence of good faith. In publishing a communication The Herald-Tribune does not imply agreement with opinions expressed.

J. B. YULE, Editor.

THURSDAY, SEPTEMBER 14, 1939

AGAIN THE WHELPS JOIN THE BRITISH LION

In 1914, what were then the cubs, rallied to the support of Britain in a war that was supposed to end with the British Empire.

Twenty-five years later, Britain is again involved in a war with Germany, and—as in 1914—the whelps again rally to the support of the old British lion.

And once more is demonstrated the greatest solidarity of a family of nations, even known in the history of the world. That cohesion is due to the fact that all parts of the British Empire stand for the same democratic principles—principles Hitler would destroy by force if he were permitted to do so.

As in the Great War of 1914-1918, there is in the present struggle the clashing of two ideologies. This war will decide which shall survive: the democratic system, under which there is individual freedom, political and religious; or Nazism, as represented by Hitler, a system under which individual freedom is subservient to the ruthless power of the state.

If the dictatorial forces conquer, then human progress will be set back hundreds of years and the efforts put forth for many long years in the cause of individual freedom will have been in vain.

Knowing this, the two great democratic powers, France and the British Empire, have pledged all their resources in man-power and machinery to resist to the utmost the aggression of Nazism led by a mad man like Hitler.

British and French leaders all agree that it will be a struggle to the death and both countries are shaping their plans fully realizing the colossal task ahead.

Canada, Australia, New Zealand and South Africa have made their respective positions clear by declaring war against Germany.

So far as the Dominion of Canada is concerned there is no visible excitement, but there is under that quiet surface a grim determination to assist with all the power of the country the effort to forever crush Hitler and all that he and those associated with him stand for.

Our war is not with the German people but with Hitler, and the many peace-loving Germans and those who would be their friends were it not for Hitler, who are being sacrificed in a war brought about by a man who is obsessed with an idea of world power.

Our war is not with the German people but with Hitler, and the many peace-loving Germans and those who would be their friends were it not for Hitler, who are being sacrificed in a war brought about by a man who is obsessed with an idea of world power.

"There Shall Be Wars And Rumors of War"

By Dave Livingstone

VANCOUVER, Sept. 8.—Today's papers disclose the fact that at last Canada has decided there's a war on; that is inasmuch as to declare a state of war exists, without saying who with or against. Friday's session will no doubt give us the details of the South Africa "South Africa at War with Germany."

Vancouver is very quiet throughout it all—to the casual observer, at least. A tour of the different armies in the city puts a different complexion to outward appearances. All the local units are quietly recruiting up to strength without having to resort to any of the old-time fanfaring or trumpeting—giving the lie to the much-voiced assurances that the youth of today would only fight if Canada was invaded. And, strange as it may seem, it's the intelligent type of youth that's flocking to the colors. Until they go under canvas they receive eighty-five cents a day as an additional allowance to cover their living expenses in town.

Sitting in the Beasborough Armories yesterday was like being back in the trenches. One old soldier who had signed up for his second war, snorted and said: "Look at them just boys. And look at that sergeant-major, would you? Just a kid! ... Wait till Hitler gets ahold of him." I tried, without much success, to convince him that we were just kids ourselves when we joined up in the last war.

I talked with two veterans who had re-enlisted for this war—both of them had passed their medical examinations and been sworn in. I

and take to the azure blue in an endeavor to peer into the future and to find a solution to the riddle of the universe. But space will not permit me to detail the various deep subjects discussed at "No. 11 Downing Street."

In conclusion I would like to say that I like to join the gathering, even if at times they throw out leads to get my goat.

Dad's Notions

By E. B. Stanley

STRAWBERRIES THE HIGHWAY PATROLMEN

Fruit is one of Nature's choicest gifts. It was probably man's oldest diet at first. There may have been some connection between this diet and the length of life he then enjoyed.

However, the health-giving qualities of fruit is not disputed. A diet of fruit is recommended by physicians and nurses. Fruits are effective patrolmen of the digestion highway.

Here are some of the facts I have gleaned: Fruits "are the very best alkalizing food of blood and body tissues. . . . are the very best sources of the most unstable vitamin C. . . . Like most all natural foods are rich in the vitamin elements that the chemist cannot find."

"In dried fruits there is not only an abundance of mineral salts undisturbed by cooking, but abundance of potential energy in the plentiful supply of fruit sugar."

"Whether dried or fresh, all (fruits) furnish laxative properties, thus materially assisting in the prevention of putrefaction. . . . they oppose the development of self-poisoning from the bowel."—Robert D. Jackson, M.D.

Chief of fruits, to my notion, is strawberries. . . . doubtless God might have made a better berry than a strawberry, but, doubtless, God never did. It is quoted by John Burroughs in his essay on strawberries.

From this essay I copy the following remarks: "The strawberry is almost perfect in every way, and sometimes no doubt his salvation. . . . It has that indescribable quality of all first things. . . . born of copious rain, the fragrant nights, the tender skies."

"All other berries are tame beside it."

"I suspect this was the food of Adam in Paradise. . . . It is peculiarly a country dish, and is to the taste what a wild bird's song is to the ear."

"The strawberry, in the main, repeats the form of the human heart, and none other is so deeply and fondly cherished or hailed with such universal delight, as this lovely but youth-renewing berry."

The strawberry adapts itself to practically every land climate, and gladdens the heart and contributes to the health of man wherever he roams.

By centuries of breeding and selection this fruit has attained the production and size, appearance and flavor that is a constant source of wonder and delight.

And by picking out the varieties according to the time of ripening there may be a continuous supply of this delectable health-giving fruit throughout the growing season. We picked our last berries in 1938 and sent them to The Northern Tribune November 1. Imagine it—November 1, in this north country!

Though that was a freak season, there is nothing to prevent canning abundantly of that fruit for the continuous use of the home.

Of course the sealers cost money, which some people don't have. . . . there is scarcely a home where money is not foolishly and harmfully spent, which could profitably and healthily be used for sealers and jars. . . . It is far better to can the fruit without sugar and sweeten it as it is used than to fail to store up the fruit.

And don't overlook this point regarding canned foods: Tomatoes are highly recommended for the healthful qualities, perhaps equaling the value of oranges. I wonder why. As a layman, but basing my ideas on what I have read and have experienced, I believe it is because

asked them, "What are you waiting for? Is there a parade?" But no—they were both waiting for their sons, who were in the line-up to be sworn in!

Walking behind the band of the Irish Fusiliers today in its parade around town, I was able to judge its effect on the citizens down town—and, contrary to lots of public opinion, it was the girls and matrons whose eyes were first to sparkle and respond to rousing martial airs.

No recruiting sergeant followed the band nor was there any attempt to induce the youth of today to join the colors—it don't seem necessary. You could pick out the vets as the band went by—like old war horses smelling blood, with "For we're the soldiers of the Queen, my lad!" ringing through the streets, would cause them to throw back their shoulders with a determined look ahead that seemed to say: "Who's afraid of old Hitler?"

When the band stopped for a rest down town, I noticed close to the M.M. with star—also a decided limp that had, no doubt, something to do with his M.M. The regimental crest on the big drum carried the words: "FAITH—A—DALLA" ("Clear the Way").

Tomatoes are not "doped" with dead, devitalized, devitaminized, demineralized, acid-forming, artificial sweeteners. To the same extent that sugar is used on fruits, so that extent, probably, the benefit of fruit as an alkalizer is neutralized—no special benefit of tomatoes.

However, I don't understand that all the benefit of fruit is destroyed by neutralizing it with sugar. It is the alkalinity element of fruit that is reduced to the extent that the acid-forming element of sugar is neutralized. But fruit has other elements too.

And it is only a fad or a custom—the excessive use of sugar in food yet to know of a person carrying a bowl of sugar with him into his berry patch that he might eat strawberries or raspberries or yet the lack of sugar does not deter us from eating fruit freely when in the patch. It is these civilized table habits that account for many of the Empire's ailments, and is highly beneficial to most systems.

What is more rare than strawberries and raspberries and if sweetening is used, let it be nature's product untempered by man's foolish hand; but even then, let it be used with moderation, for the Empire's sweets are also rich concentrates.

THE WORLD OF WHEAT

By H. G. L. Strange
Director, Research Dept., Searle Grain Company, Ltd.

War, with its ruthless destruction of cherished possessions, and of precious life, is scourging us again, Canada, with the other members of the British Commonwealth of Nations, is standing steadfastly by the side of Great Britain and her allies, France and Poland, against Hitlerism and Nazism.

The war will be bitter and cruel, and perhaps long if it is fought on the basis of truth, of liberty and of freedom, which we stand for, are to prevail, it will require an extraordinary number of the Empire's young manhood in the battle lines, and so will require too the unswerving and intense efforts of practically every man and woman serving on the home front, in one capacity or another, to supply the soldiers with food, medical services, munitions and equipment.

We have no quarrel with the people of Germany, still less with those of Great Britain, who are working peacefully in our midst in Canada. Our desperate fight is simply against Hitlerism and Nazism, with its fierce determination to seize by brute force more and more of the territory of small peaceful nations, and so more and more power. We oppose the concentration camp should be the dread fate of peaceful people who differ with their government merely in matters of religious or political belief.

Following factors have tended to raise prices: War demand—British buys heavily in Winnipeg market—France prohibits export of all wheat—Smaller southern hemisphere wheat crop—German crops smaller than last year.

Following factors have tended to lower prices: Poland and harvesting bumper crops—Foreign exchange fluctuations hinder export of wheat—Broomhall's preliminary estimate of imports' requirements for million less than last year—Prairie wheat crop privately estimated to be about 430 million bushels.

Poland today is the sixth ranking power in Europe in population and area, but it is one of the poorest in possessions. For 1,900 years Poland has staged a struggle for independence and a country of its own, and every time the Germans and Russia joined together Poland has been destroyed. In 1917 Poland was a part of the Russian Empire, including the Baltic Corridor and Silesia, Latvia, the Ukraine, and large slice of present Russia. By 1772, Germany and Russia divided Poland, giving a share to Austria. One-fourth the territory of the nation was taken. The next year they took two-thirds of what was left. Despite this, the Polish nation survived until 1796. Then Russia and Germany took the rest. Poland was re-established after the World War.

—News of the World.

Story of First Women To Go Through The Monkman Pass

By Gertrude Charters

When the silver Yukon Queen of Yukon Southern Air Transport landed at the Grande Prairie airport Sunday afternoon from Prince George, three much-travelled women had made a happy landing after an unusual journey. They were Mrs. L. J. O'Brien, Miss Marion Morrison and myself, all of Grande Prairie, who had just completed the first trip made by white women right through the Monkman Pass.

On August 26, with Bruce Albright of Beaver Lodge and O. B. Harris of Grande Prairie, we left by truck for the pass. At Mount Valley we picked up Mr. and Mrs. McIntosh of Vancouver. Due to a late start we only reached Stony Lake the first night. Mrs. Martin and two daughters of Edmonton were there on their way back from Monkman Lake on horseback. The roads were rougher than last year, as little work had been done on the road, but the whole in good condition. By noon next day we were at the end of the road built by the N.P.H.A., about three miles from Kinuso Lodge. Here a fire had been ahead of us and the hillside was black. A smell of smoke and a fine mist of ash filled the air, giving the scene a desolate look.

The pack train was waiting with two passengers—Mrs. H. O'Brien of Appleton and Miss Eleanor Goodwin of Vermilion, who were returning from a two weeks' trip to the Falls and Monkman Lake. Mr. R. E. Leske of Beaver Lodge, who had been taking photographs of the many beauty spots as far as the summit of the pass, and Mr. Watson were with them, but the whole in good condition. By noon next day we were at the end of the road built by the N.P.H.A., about three miles from Kinuso Lodge. Here a fire had been ahead of us and the hillside was black. A smell of smoke and a fine mist of ash filled the air, giving the scene a desolate look.

CHANGES PING to PURR!

— by cleaning out carbon as you drive! You can get rid of ping easily and inexpensively with Triton Motor Oil. For Propane-Solvent refined Triton forms so little new carbon it actually allows your motor to burn away carbon deposited by other oils! The motor generally loses its carbon ping within 2 to 3 thousand miles!

When knocks go you get better gas mileage, smoother performance, increased power. You save on repairs and operating costs. Switch to Triton next time you refill.

Timely Hints From the Beaverlodge Sub-Station

By W. D. Albright

"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

A sack worked through the grain screw of a separator when changing from one kind of grain to another will reduce admixture, but this practice will fall far short of ensuring pure grain.

W. G. Duncan, Calgary District Superintendent of Soldier Settlements, in his report for the period ending August 31, says frost was reported from practically all parts of the district, considerable variance of opinion as to damage. The Peace at that date had had none but very scattering visitations in some of the low lands and brushy areas, and on the Substation the tenderest plants were untouched when this was written on September 7. The lower half of Alberta must be too far south.

Sheep Questions

1. Would like a book describing the different breeds of sheep. Wish to buy a few registered sheep. What breed would you suggest?

2. Are there any wool growers' associations in Alberta?

Ans.: 1. Five sheep bulletins of the Dominion Department of Agriculture have been forwarded.

2. The Hampshire is the breed being promoted in the Peace by the government agencies. For years past the Dominion Live Stock Branch (now the Dominion Live Stock Production Service) has been sending in Hampshire rams in early November under the Ram Club Policy. Full particulars may be had by addressing a letter to N. Curtis, 407 Blower Henry Building, Edmonton.

3. Alberta is well served with Sheep Breeders and Wool Growers' Associations. There are: The Alberta Provincial Sheep Breeders' Association, Exhibition, Edmonton; the Alberta Sheep Breeders' Association, Victoria Park, Calgary; the Central Alberta Sheep Breeders' Association, the Southern Alberta Sheep Breeders, Lethbridge; the Vermilion Wool Growers' Association, and the Eastern Alberta Wool Growers, Hanna. A very considerable portion of Alberta's wool is shipped for sale cooperatively by the associations mentioned.

Peony Varieties to Buy

Though refusing to be styled an authority or expert, C. M. Clarke of Teespee Creek is undoubtedly the best informed man on peonies in the north country, if not in Alberta. At a series of field days this summer at Beaverlodge and the Peace River Block he interested many of the auditors in the culture of the peony, which in his opinion is the most valuable flower for Peace River gardeners to concentrate upon. It is easy to grow if a few simple requirements are met. It is long-lived, hardy and comparatively free from ailments. The bloom is profuse and beautiful, some varieties being almost as fragrant as the roses. It is long-lived, hardy and comparatively free from ailments. The bloom is profuse and beautiful, some varieties being almost as fragrant as the roses. It is long-lived, hardy and comparatively free from ailments. The bloom is profuse and beautiful, some varieties being almost as fragrant as the roses.

The beginning of limited means can make no mistake in selecting any of the following varieties, all of which are very fine and are also among the cheapest.

White—Festive maxima, 9.3—Early. Albatre, 8.7—Late midseason. Marie Lemoine, 8.5—Late.

Pink—Monsieur Jules Elie, 9.2—Early. Reine Hortense, 8.7—Midseason. Livingstone, 8.4—Late. Albert Crouse, 8.6—Late.

Red—Adolphe Rousseau, 8.3—Early. Karl Rosenfield, 8.8—Midseason. Felix Crouse, 8.4—Late.

Adolphe Rousseau is a semi-double, all the others named above are double. A more complete list can be obtained on application to the Superintendent of the Experimental Substation at Beaverlodge.

The figures placed after the names of varieties in the foregoing list are the ratings of the American Peony Society and they may be used by those not familiar with peony varieties as a guide in making the selection. A score of 10 represents a perfect variety and any variety with a rating of more than 8 will prove satisfactory, while those with ratings of 8 or over will all be excellent. Differences in soil and climatic conditions influence the character and performance of peony varieties, and as these figures are the average of ratings given the varieties by growers all over the United States, Canada and other countries, it is quite possible that a variety with a comparatively low rating may do better here than another with a higher rating. It is therefore advisable to visit the Experimental Substation when peonies are in bloom and, if possible, when on vacation outside the Peace River District, the large plantings of commercial growers as well, before making one's selections. Peonies prefer a slightly alkaline condition but will grow in any type of soil that is well provided with organic matter, and are at their best in a cool, clayey loam. When planted on light soils they mature very rapidly and bear inferior blooms. In a heavy clay soil they develop more slowly but eventually produce magnificent flowers if given proper care.

Selection of a suitable location for

For instant ease from chest colds, ordinary sore throats.

Run on MILDARD'S GREAT CANADIAN RUBBING LINIMENT

the peony bed at the outset may save much disappointment later on, and certain sites frequently used ought to be particularly avoided. They are heavy feeders and will not tolerate grass and tree roots among their own. If planted on a lawn, clear space of at least 18 inches must always be kept between the plants and the edge of the grass. As tree roots extend beyond the spread of the branches, peonies should not be planted too near trees or shrubs. Make allowance for the branch spread of the full grown tree or shrub and locate the peony bed a little beyond it if the planting is to be permanent. If peonies are planted closer than that to young trees, they will have to be moved as the trees develop. And they should be planted near the foundation of a building, as the walls absorb moisture and radiate heat and will keep the roots in a dry, unhealthy condition. The location chosen must be well drained because, although they develop a good deal of moisture during the growing season, they do not thrive on wet, soggy ground. It should have full all-day exposure to sunlight in any case. Too heavily shaded they will bear poor blooms or none at all.

Report of Summer Work Of Crop Testing Plan

By H. G. L. STRANGE

Director, The Crop Testing Plan

The prairie wheat crop shows a decided improvement in trueness to variety as compared with last year. The analysis of some 24,000 farmers' wheat samples made this summer by The Crop Testing Plan.

The samples collected by elevator agents at 1,450 points in Manitoba, Saskatchewan and Alberta, and were tested in groups at 161 points throughout the West. The analysis of these samples, each one of which represents a farmer's field of wheat, reveals that this year not less than 38 per cent of the wheat crops are true to variety to a very high standard of excellence, and consist, moreover, of a recommended variety of good milling and baking value.

The average of A's for the previous eight years has been only 26 per cent. The investigation reveals, however, that there is still room for improvement, for no less than 40 per cent of the farmers are losing money by producing crops giving lower yields and lower grades than needs be, simply because these farmers are using either old-fashioned or old-fashioned poor quality varieties, or else mixtures of early and late varieties in the same field, these mixtures, naturally, making it impossible for the farmer to harvest his crop to the best advantage. Good, therefore, as the quality of Canadian wheat may now be on world markets, there is certainly a definite opportunity for further improvement as the undesirable varieties and mixtures become eliminated from western wheat crops.

Last year's results showed that 8,149 farmers were found to have poor quality, money-losing crops, which were classified as either C's or Mixtures. The records of the 1,450 elevator agents who do the work of The Crop Testing Plan reveal, however, that the agents were able to persuade not less than 5,610 of those who last year had C's and Mixtures, to purchase better seed and to sow this superior stock in small fields on the farms. This coming year, therefore, these farmers will have sufficient good seed to sow all their fields. It is expected, then, that next year The Crop Testing Plan's analyses will show even greater improvement than has been recorded this year.

The Crop Testing Plan work this year can be considered a success, judging by the interest taken in the work by farmers, business men, elevator agents and superintendents. The plots sown and cared for by the agents were all of a very high order of neatness and cleanliness and drew most favorable comment from the government agriculturists.

The actual work of analyzing and classifying the thousands of farmers' samples, each sample representing a field of wheat, is done by competent professional cerealists and plant breeders, whose services are kindly made available year after year to The Crop Testing Plan by the Dominion and Provincial Departments of Agriculture, by the Universities, and Schools of Agriculture.

These agricultural authorities at the various Field Days unanimously commented on the fine behavior of the new, more resistant varieties—Thatcher, Renown, Apex and Regent. At a number of the plots still newer rust resistant varieties were shown,

which have recently been originated by our Canadian Rust Research Laboratory and which new varieties are still under test. Out of this new material the government plant breeders state they hope to find an even better rust resistant variety than any now available, although those licensed and now in use are, judged by any standard, quite first class varieties.

In addition to rust resistant wheats, new and superior varieties of oats, barleys and of earlier maturing wheats, all still in the making and still under test by the Dominion Experimental Farms, the Rust Research Laboratory and Universities, were shown and attracted much favorable comment and interest.

The Crop Testing Plan plots included one of the newer American rust resistant wheats, Pilot. This variety, unfortunately, under our prairie conditions, developed a decidedly weak straw and so is considered unsuitable for use in Canada, and, therefore, has not received a Canadian license.

Never before were quite so many farmers so keenly interested, it seems, in endeavoring to use the best varieties as recommended by the government authorities. It was very evident that farmers are now realizing that only by the use of a recommended variety, and by the production of a crop of that variety in a reasonably pure state, can they hope to obtain the full money returns that all their work of wheat production warrants. It is evident, however, that there are thousands of farmers who can still be assisted to secure higher returns from their farming operations than they are now receiving.

GAIN MORE KNOWLEDGE ABOUT FLOWING RESULTS

Experiments conducted by the Field Husbandry Division, Dominion Experimental Farms, have shown that shallow plowing produces as high yields as deep plowing at a considerable saving in power requirements. Furthermore, tillage beyond that required for weed control and reasonably good seed bed preparation has no beneficial effect on yields.

In many districts of the Prairie Provinces plowing for summerfallow has been largely dispensed with in favor of the "plowless fallow" by surface cultivation. In eastern Canada plowing soil land in the summer with a flter-harvest cultivation where there is a troublesome, and plowing in late fall on less weedy land, have both proved superior to spring plowing, especially on heavy soils. One advantage of summer or fall plowing is that it facilitates the early seeding of cereal crops, which experiments have clearly shown to be very desirable.

EAGLESHAM NEWS

(Herald Correspondent)
EAGLESHAM, Sept. 2.—The rains we have been having lately have put off threshing for a few days. There are several new threshing machines in the country this year.

Louise Childers returned home from Spirit River after being away for two months.

Mr. Harold Martin returned to this district to start teaching at Four Mile Creek on September 5.

Mrs. Warner started teaching at Fox Creek on Monday, August 28.

Mrs. Harry Campbell will leave on Tuesday's train for Donnelly, where she will teach school. Betty Childers will take charge of her home for awhile.

Mr. and Mrs. Fred Johnson and Delbert Campbell went to Sexsmith for harvesting.

Lloyd Childers and Lester Webb report that crops on the prairie are about the same as those of the Peace River country. The boys have been down visiting friends and relatives at their old home town, Oyen.

Mr. and Mrs. Selmer Larsen are driving around in a new car. Lots of luck, Mr. and Mrs. Larson.

MULLINS-O'CONNOR

Miss Ellie O'Connor, youngest daughter of Mr. and Mrs. Dan O'Connor, became the bride of Alec Mullins, son of Mr. and Mrs. Mullins of Watino, on Friday, September 1.

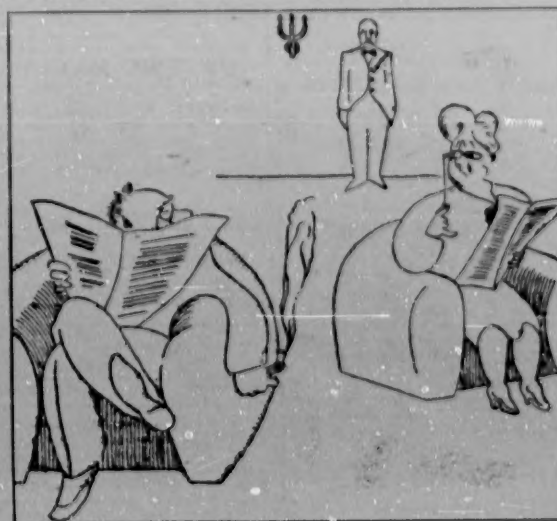

It is reported that Muriel Empson will go to Brownvale for this term at high school.

Mrs. Childers and son Dick have been out picking roots for the past week.

Third Party Riaks

Brown and Jones were returning rather late from the club, by car. Gradually the speedometer crept up—20, 30, 40, 50, 55 miles an hour. Jones began to feel slightly nervous. "Not driving a bit right, are we, o' me?" said he.

"Sh no fault of mine, 'sh it?" responded the other, "sh not me than driving!"

SHE: "It's scandalous! In Africa fine women are sold for twenty shillings."
HE: "Well, a fine woman is worth twenty shillings."
Sondagnisse Strix, Sweden.

HUALLEN NEWS

HUALLEN, Sept. 5.—Heavy rains Saturday last have again delayed the start of threshing operations. It is hoped that the weather clears up soon.

Miss Lechelt arrived on Friday's train from Lacombe and will again be in charge at the Lower Beaver Lodge school when the term opens Tuesday.

Last Friday night Huallen ladies' basketball team took the Grande Prairie ladies into camp and whittled them down to their size, beating them 29 to 8.

Mrs. R. S. Young of Aspen Dale is at present visiting in Manitoba.

Rev. K. L. Sandercock of Wembley held services at Aspen Dale school last Sunday. There was a large attendance, who listened to the inspiring sermon by the pastor. In the absence of Mrs. Young, Dorothy Grubb officiated at the piano.

Agnes Smith, Harry Broadhurst and ye scribe were visitors at Mr. and Mrs. Jack Bull's last Sunday evening.

TEEPEE CREEK

TEEPEE CREEK, Sept. 5.—School opened on the 5th with the usual attendance and with Miss Ashley from Calgary as teacher. We hope Miss Ashley will have a successful year.

Mr. Milan Fraser came home last Friday from the hospital, where he went for a few days' treatment.

Harvesting is about all finished and some have started threshing already.

Tom Norman was out to visit his sister and mother a few days this week.

Mr. White is busy building a new granary. Getting ready to thresh by the look of things.

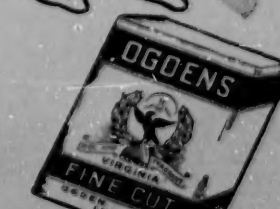

Mrs. Harry Hoag and family visited at the home of Mr. H. Love on Friday, September 1.

Irene and Doris Nelson were Sexsmith visitors last Friday, going in to meet the teacher, Miss Ashley. We were sorry to hear little West-

THAT REMINDS ME— OGDEN'S IS BEST FOR ALL 'ROUND PLEASURE

There's a world of satisfaction in rolling your own with Ogden's Fine Cut. For Ogden's does roll a better cigarette—a milder, cooler, smoother cigarette—thus, you get real value whether you buy it in the handy package or the 1/2 lb. tin. Of course you'll use the best papers—"Vogue" or "Chantecleer".

Minutes of Council Meeting of M.D. of Bear Lake No. 740

Minutes of meeting of the Council of the Municipal District of Bear Lake, No. 740, held at the Municipal Office this 9th day of September, 1939. Present: Reeve Powell, Councilors Holton, McLevin, Smith, Lozeron, and Foster.

1. The minutes of meeting held on the 12th day of August, 1939, were read.
Moved by Councillor Foster that the minutes be adopted as read. Carried.

2. The financial statement for the month of August was placed before the Council and ordered filed.

3. Moved by Councillor McLevin that the following general accounts be passed for payment:

King's Printer, tax sale notices	\$29.50
N.A.R., cleaning track	47
Gov. Tel., August account	50
Alta. Mur. Stationers, office supplies	26.25
Chipman Chemicals, Alkaloids	12.50
Alex. Wishart, freight	1.37
Wm. Student, blacksmith work	4.75
Wembley Hardware, hardware	10.50
A. Olluid, plank	42.80
Albert Black, blacksmith work	90
C. L. Larson, re—	
H. Lester, Sept.	\$10.00
G. Gustafson, Sept.	10.00
Ole Wold, Sept.	12.00
Frank Landry, Sept.	10.00
N. E. Clow, re—	
C. Aldred, Aug.	10.00
Robt. Kronz, re—	
Ben Ford, Aug.	\$10.00
Mike Sank, Aug.	10.00
John Stoker, Aug.	13.00

33.00
Campbell, Wilson & Horne re—
Geo. Watson, Sept. \$10.00
Geo. Watson, Aug. 10.00
R. O. Johnstone, Aug. 10.00
R. O. Johnstone, Sept. 10.00
David Whyte, Aug. 10.00
F. Johns, Aug. 10.00
W. Wlasu, Aug. 10.00

70.00
D. W. Patterson, refund on freight paid and rest— 16.68
The Postmaster, stamps 45.00
F. G. Fawkes, weed inspection 18.00
K. Kuntz, labor 17.50
J. J. Tinsington, refund 2.20
Carried.

4. Moved by Councillor Smith that the following Divisional Accounts be paid for payment:
Division 3
Stokke Brothers, labor \$98.00
E. H. Hopkins, labor 7.00
A. Reid, labor 12.00
Carried.

5. Moved by Councillor McLevin that James Smith, Deputy Reeve for the next six months.

6. Moved by Reeve Powell that the Secretary write to the Grande Prairie Municipal Hospital Board advising them that accounts for patients at the hospital which have been paid by the Municipal District have been placed in a collection agency in Edmonton, and former patients whose accounts have been so paid by the Municipal District are being annoyed by these demands for payment; and that the Hospital Board be requested to see that such demands cease. Carried.

7. The submission of bridge requisitions for the year 1940.

8. The following correspondence was dealt with and ordered filed: Report of F. G. Fawkes, Weed Inspector; letter from Bureau of Relief re J. H. Slat; letter from J. H. Murray, letter from Department of Public Works re bridges; letter from Clarence Schneider; letter from Royal Alexandra Hospital.

9. Moved by Councillor McLevin that the proposal of Mr. J. H. Murray be satisfactory to the Council. Carried.

10. The matter of the application for relief of Miss Helen Wurtz was referred to Councillor Foster.

11. Moved by Councillor Foster that the application for old age pension of Joseph Tesar be approved. Carried.

The meeting then adjourned until 7:30 a.m.

At 7:30 the meeting was resumed.

12. By-law No. 25 of the Municipal District of Bear Lake was then read.

Moved by Councillor Lozeron that By-law No. 25 be given its first reading. Carried.

Moved by Councillor Foster that By-law No. 25 be given its second reading. Carried.

Moved by Councillor Holton that By-law No. 25 be given its third reading. Carried.

Moved by Councillor McLevin that By-law No. 25 be finally passed at this meeting. Carried.

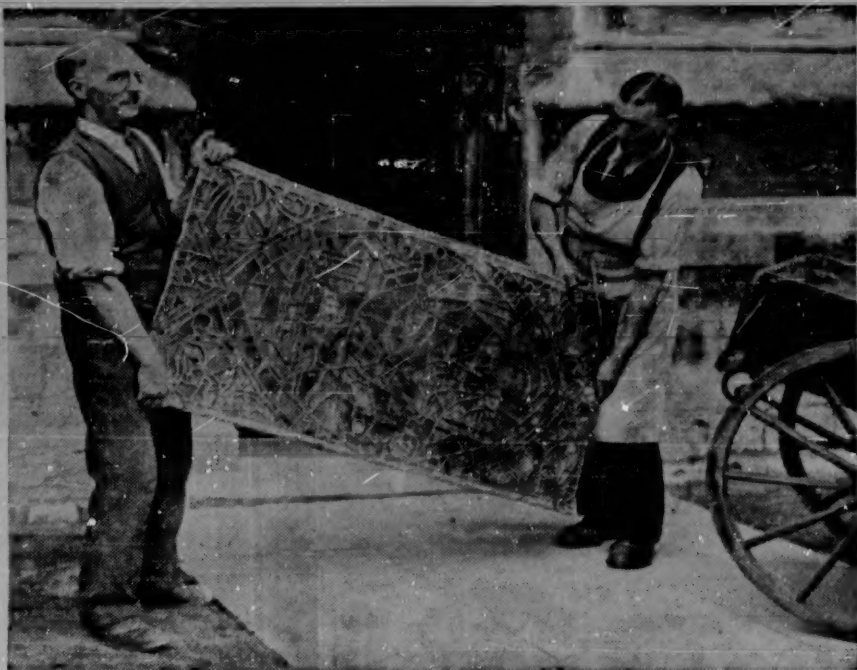

13. By-law No. 26 of the Municipal District of Bear Lake, No. 740, for the purpose of borrowing Four Thousand Dollars (\$4,000.00) for municipal purposes was read.

Moved by Councillor Holton that By-law No. 26 be given its first reading. Carried.

Moved by Councillor Lozeron that By-law No. 26 be given its second reading. Carried.

Moved by Councillor Smith that By-law No. 26 be given its third reading. Carried.

Moved by Councillor Foster that By-law No. 26 be finally passed at this meeting. Carried.

STAINED GLASS REMOVED FROM ENGLISH CATHEDRALS AS WAR PRECAUTION
Two workmen removing priceless 12th century stained glass from the great window in the south-west transept of Canterbury Cathedral are seen above carrying a section away to safety.

A Season At Stony Lake

By Pearl McArthur

The much-read-of "Stony Lake Summer Resort" is drawing to a close of a very busy and pleasant season.

Up to the present date (since opening our business on July 6), some 300 people have come and gone, leaving their names as reminders on our register, coming from such far points as Seattle, North Dakota and Vancouver. And just today we had the pleasure of a visit from the following: Dr. G. B. Steward, Florence, Arizona; Dr. B. L. Steward, Coolidge, Arizona; W. W. McKee, Blackwell, Oklahoma; and B. W. McGilivray, Rimby, Alberta, who paid us a visit last year accompanied by Mrs. McGilivray. The gentlemen from Arizona and Oklahoma are on a hunting expedition in our famous big game mountains.

It was a picturesque sight a few days ago to see a pack train of some twenty horses and eight Indian packers and guides jogging along up the trail, where they were to await the coming of the previous mentioned hunting party, who arrived here by truck, with the capable manager of our resort, Mr. R. Jacobs.

One of the many incidents of this interesting summer I have spent here was a very unusual popping sound one afternoon, and upon thrusting my head out of the store window I beheld the first motorcycle to venture the Monkman Pass rounding the last bend! I soon found out the two riders were all the way from Melbourne and London, Ontario. Nice going, boys.

And this season, like last, hasn't passed without its typical wild excitement. Yes, sir, I had the usual bear get real inquisitive, and upon opening my cabin door bright and early I beheld a huge moose in front of the porch! It must have been all favorable to him, for he leisurely trotted down to the lake and swam away. And the usual hiking trip which ended in a serious searching party, it's been very peaceful!

I have thoroughly enjoyed my summer's work here, meeting so many people from various places has been a pleasure. One thing that impresses me is the general friendliness and good sportsmanship of one and all. The general idea upon arriving here—a stretching a bit and taking in the scenery—'Well, the road was a bit rough in spots, but it's worth it! How's the fishing? And swimming? Swell!'

In closing this I would like to mention that the Grande Prairie people are especially well represented on our register. And the early morning "Tarzan call" of Mr. O. B. Harris will long echo in our hills.

On behalf of the manager, Mr. R. Jacobs, and your "Stony Lake" hostess, "Pearl," I say thank you.

W.M.S. News

The meeting of the Halcourt Auxiliary which was to be held in Beaver Lake Wednesday has been postponed till next week.

The Presbyterian president expected to visit Rolla W.M.S. this Tuesday, but road conditions made this impossible.

Clairmont will hold their fall rally September 21. Mrs. Arthur Throver of Beaver Lodge will be the guest speaker. For two years Mrs. Throver was a missionary teacher in the Indian School at Caugnawaga, Quebec. She will also be the guest speaker at the Grande Prairie Autumn Thanksgiving, October 4, at 8 o'clock.

Wembley will open their fall work on Friday, September 23. They will likely have a luncheon meeting.

"Steadfast, unmovable, always abounding in the work of the Lord, is our watchword."

BELLOY NEWS

WILL HAVE ONE OF BEST
MACHINE SHOPS

BELLOY, Sept. 12.—A Archibald and R. Larson were business visitors in Edmonton last Friday and Saturday, purchasing a truckload of equipment for their new garage and blacksmith shop. Their purchases included new steel lathe, a trip hammer for plow share sharpening and a set of car body repair tools, with a point spray gun for painting cars. This machinery will give Archibald and Larson one of the best equipped machine shops in the north country.

Rev. J. W. Donaldson of Spirit River held church service in the Anglican Church on the corner last Sunday morning.

We understand Mr. Carl Hansen has purchased a second-hand threshing machine and will begin operations immediately.

MARQUIS YIELDED 47½ BUSHELS
TO THE ACRE

Due to poor threshing weather the past week, there has not been much of that work done so far. The best yield heard of so far was on the farm of Mrs. D. W. Bolduc, where 23 acres of Marquis wheat yielded 47½ bushels to the acre. Others report yields of from 28 to 43 bushels per acre.

Miss Annie Kostash has taken up a position with Mrs. J. H. Scott for the busy season.

Miss Nita Sinkovitch is staying with Mrs. Poulin for a few days, helping through the busy season.

WANHAM NEWS

GOOD CROP IN WANHAM DIST.

WANHAM, Sept. 12.—There is an excellent crop of both wheat and oats here and in all the adjoining settlements, namely, Heart Valley, Peoria and Westvale. Threshing will be resumed with the return of better weather and a few busy weeks will give everybody more means than have been available for several years past.

PIONEER FARMER RETIRING
Mr. William McLain, a well-known and now elderly oldtimer and successful farmer of Heart Valley, is retiring, and advises his friends that they may look for sale bills in the near future. His excellent horses, stock, and farming equipment will soon be scattered; however, your correspondent is informed that Mr. and Mrs. McLain have no intention at present of leaving the community.

Keeping Them Honest

"Are your neighbors honest?" old Rastus was asked.
"Yeas, sah, dey is."
"Then why do you keep that loaded shotgun near the hen coop?"
"Oh, that's jes' to keep them honest."

Sonata six Oeufs

An archbishop, staying at the house of some friends, was greatly impressed by the fact that each morning, before breakfast, he heard someone in the kitchen singing a hymn.

On congratulating his hostess on having such religious servants, he was told: "Oh that's the cook's hymn for boiling eggs. Three verses soft, five verses hard."

BRITAIN HAS WEED-KILLER TRAINS

Here's a new one! Weed-killing trains in England which go up and down the country spraying "Alfalcide" along the railway tracks. Railroad authorities claim that the weeds in the ballast of the tracks tend to loosen the ties, prevent proper drainage and weaken the track bed, so they kill the weeds in the manner shown above.

DAREDEVIL DRIVER KILLED WHILE THRILLING OTTAWA CROWDS

Before the horrified gaze of spectators lined around the top of the dome, two daredevil motorcycle riders in the Lion Motordrome at Ottawa collided while speeding around the wall at 60 miles an hour. Joe Woods, 21, of Greenville, S.C., received a fractured skull and died in hospital, while Randolph Lewis, 28, Richmond, Va., suffered painful injuries. This picture was taken as Woods, unconscious, was being helped by fellow employees a few seconds after the crash.

Popular Young Couple Married At Prestville

Don Robertson of Grande Prairie and Miss Jean Marjorie Parks of Prestville Principals in Pretty Wedding Ceremony.

PRESTVILLE, Sept. 12.—A pretty and formal wedding took place in St. Andrew's Presbyterian Church here on Saturday, September 9, at 3:30 p.m., when Jean Marjorie, daughter of Mr. and Mrs. William Parks of Prestville, became the bride of Donald Robertson, son of Mr. and Mrs. George Robertson of Grande Prairie.

The groom's man was Mr. Mike Harvey of Grande Prairie.

The church was beautifully decorated with seasonal flowers by Mrs. G. McGregor, daughter Betty and Miss Rosetta Moors.

The bride entered the church on the arm of her father to the strains of the Wedding March, played by Mrs. Percy Parks.

Rev. Alex McSwen performed the marriage ceremony. Before the signing of the register, Miss Rosetta Moors (Deaconess) presented the bride with a lovely Bible on the occasion of the first marriage in the church. During the signing of the register Mrs. Percy Parks sang "The Bells of St. Mary's."

After the ceremony the guests were received at the home of the bride, where lovely refreshments were served. Mrs. Geo. McGregor, Mrs. P. Parks and Mrs. J. Stevens assisted the hostess.

Later in the evening the couple left for Grande Prairie, where they will make their home.

The bride was becomingly dressed in an afternoon dress of pink lace over blue, with a blue sash. She carried a bouquet of sweet peas, baby breath and lily of the valley.

The bridesmaid, Miss Loreen Parks, was very becoming in a dress of blue crepe de chine. She wore natural flowers in her hair and carried a bouquet of pink sweet peas and baby breath.

The groom's man was Mr. Mike Harvey of Grande Prairie.

The church was beautifully decorated with seasonal flowers by Mrs. G. McGregor, daughter Betty and Miss Rosetta Moors.

The bride entered the church on the arm of her father to the strains of the Wedding March, played by Mrs. Percy Parks.

PRESTVILLE NEWS

MISS JEAN PARKS "SHOWEROED"

PRESTVILLE, Sept. 12.—The Homemakers Club held a miscellaneous shower for Miss Jean Parks (bride-elect) on Saturday, September 2, at the home of Mrs. Morris Joberty.

Madalida Zahara and Raimon Joberty, dressed as bride and groom, appeared pulling a wagon laden with gifts. When the bride-to-be unpacked the gifts, there were many, useful, beautiful and ornamental.

Out-of-town guests were Mrs. R. Stevens, Ruth and Jean, of Woking; Mrs. Rollins, Barry and Larry, of Buffalo Lakes.

A very nice lunch was served. Assisting hostesses were: Mrs. P. Parks, Mrs. G. McGregor, Miss Kathleen Stevens, Miss Audrey Parks, Mrs. W. Rutherford and Miss B. McGregor.

Two Hundred...

(Continued from Page One)

Charles Turner, ex-president of the Grande Prairie branch, gave it as his opinion that a Peace River unit should be formed and that the men should be trained here. Speaking out of his experience in the last war, he contended that the men recruited from this country should not lose their identity.

M. W. Engar also strongly supported the formation of a Peace River unit. He held that there were many competent men in this country capable of training men.

Others spoke along the same lines. After the lengthy discussion the following resolution was unanimously passed:

WHEREAS there is now in the Peace River District a population of about 70,000 people; and

WHEREAS there are resident within the said District a large number of aliens and others of alien origin whose sympathies have been expressed and demonstrated to be favorable to the enemy and who are liable to cause damage to life and property in the said district; and

WHEREAS the Peace River District is several hundred miles distant from the city of Edmonton, where the nearest militia unit is established, and is comparatively isolated by reason of the secondary method of communication; and

WHEREAS there are now resident in the said District a great number of men who have served overseas in the last war, and who would be qualified and willing to command and train a battalion for overseas in the present war;

BE IT THEREFORE RESOLVED at a meeting of the various branches of the Canadian Legion of the Peace River District and British Columbia, held at Grande Prairie, Alberta, on the 10th day of September, A.D. 1939, respectfully urge that a battalion of Peace River men be recruited and trained in the Peace River country without delay and that proper regard and consideration be given each district in the Peace River country for recruiting and training purposes and that the battalion when recruited and trained be maintained as a Peace River battalion for the duration of the war.

Mayor T. W. Lawlor said that he would like to see a non-permanent force established at Grande Prairie to protect public works. He pointed out that the town already was under heavy expense guarding its public works.

The discussion then took in possible internment trouble. After the whole situation was covered a resolution was passed urging that the necessary steps be taken to meet all possible emergencies within the country.

Comrade Sherpe, secretary of the Dawson Creek branch, drew attention to the fact that it was the opinion of the people of the town that there was sabotage in connection with radio. While news from the enemy country could be clearly heard, news from British and Canadian points could not be heard.

Following a discussion a resolution was passed asking the Department of Transport, Radio Division, to make such regulations as will make it compulsory for users of electrical equipment to place such condensers as necessary to prevent interference with radio reception on their electrical equipment, as the interference given by such condenser is a means of preventing the people of the country from receiving the news.

Major George Beaton, who had been recruiting on the north side of the Peace River, was present for a time.

A letter was read from the Fairview branch of the Legion that that town, the third largest in the Peace, had been completely overlooked as a centre in recruiting. The Legionnaires from Fairview were given the assurance that the matter would be taken up with the proper authorities.

Singing of the National Anthem brought the meeting to a close.

CAPITOL

THIS WEEK:
Thurs., Fri., Sat., Sept. 14, 15, 16
"SUZIE," starring Tyrone Power, Lorelei Young, Annabella.

NEXT WEEK:
Mon., Tues., Wed., Sept. 18, 19, 20
"FREDIE MARCH AND JOAN BENNETT IN TRADE WINDS" with Ralph Bellamy and Ann Sothern.

Thurs., Fri., Sat., Sept. 21, 22, 23
"LUISE RAINER AND SPENCER TRACY IN 'BIG CITY'."

WOULD YOU ... ?

In Walter Wanger's "Trade Winds," scheduled for Monday Tuesday and Wednesday, September 18, 19 and 20, at the Capitol Theatre, Joan Bennett plays the role of a pretty girl, a very pretty girl, but she has a temper, and she acts on impulse. She is suspected of having murdered a man to avenge her sister's broken heart and suicide. But she is honest in her own way and, with the exception of her quick temper, she has a naturally sweet disposition. Would you marry her?

SCREEN STAR SCARED
BY WRESTLER'S FACE
Bull Montana, one-time "Horror Man" of Wrestling, who he more careful the next time he drops in on a darkened sound stage. An actor since he retired from the mat sport, Montana plays himself in "Big City," Metro-Goldwyn-Mayer picture to be at the Capitol Theatre Thursday, Friday and Saturday next week. While looking for his company, he walked on "The Bride Wore Red" set. Joan Crawford was quietly studying her script in a dimly lighted corner when Montana stuck his head through a door. Miss Crawford said, "Oh!" Montana turned and made a hearty exit.

When Miss Crawford described the intruder to Robert Young, the actor smiled. "Only two men in the world would fit the description," Young said, "Frankenstein and Bull Montana."

"RESIST NOT HIM THAT IS EVIL?"

By I. V. Macklin

In time of peace we can express our thoughts freely. In time of war it is well that we be careful.

And yet even in time of war there may be things that can be said. The Premier of Canada has appealed for peace. The President of the United States also. France of Spain has had enough of war. And so we might add the leader of practically every nation to the list of those who vehemently declare they want peace.

These leaders are sincere in their desire for peace; some of them, of course, providing they can get what they want, or keep what they have, by peaceable means—if not, then war. In other words, some leaders want something else more than they want peace. What is it that they want? Is it not added prestige, power and glory?

That is the personal side of war, and when national authority has been handed over by the people to one person, then the national and international situation becomes subject to his whims. Democracy or majority rule may be cumbersome, but it is safer for the world than dictatorship.

Beyond the question of personal ambition is the economic system in which we live. The competitive system glorifies the dominating competitor. That being the case, while we have now to deal with a man who wants to dominate Europe, yet, when possible, we should deal with the system that creates such men.

The old book says, "Resist not him that is evil," and Britain has made a serious attempt in recent years to carry that precept out. John Bull used to carry a chip on his shoulder, but not now. The Japs have slapped his face, kicked him in the seat of the pants, stripped him and his wife naked in front of a mocking Jap horde. Why submit to such indignities? Was it weakness or was it strength? Was it a new moral strength such as was never known

or existed before by any nation? I believe it was. Though Japs be arrogant, Britons are not cowards. The face of One brave man or any of us was slapped and spit upon. Mahatma Gandhi of India has for many years sought to win his victories for human progress by non-violence and passive resistance. Has he succeeded? The verdict of the world is, yes. He is one of the most influential individual men in the world today.

But are there limits to the policy of non-resistance? I would say yes. "Be kind to dumb animals" is a good policy but there have been many narrow escapes from death on this ranch by men who did not keep the bull in his place. "Be kind to Hitler" is a good policy. But there must be limits. If he take away Czechoslovakia, shall he be given Poland also? And then, and then, and then? In our policy of non-resistance shall we throw away our police? It hardly seems reasonable. If the idea of the "League of Nations" had been carried out whereby we might have had an international police force to keep order among the nations as the police do among individuals, the present situation might have been avoided. But some of the larger nations and those therein who wished to take advantage of weaker ones were not ready for the reign of international justice and so the "League of Nations" was allowed to die, with the consequences which have now come upon us. Having missed the path to peace, it seems now left to us only to face inevitable war.

H. G. Wells predicted 80 years of chaos. We have had 25 already. Wherein lies hope of a speedier exit from national and international turmoil? Wherein shall men find freedom from strife and violence. The old book says, "The TRUTH shall make you free." We want truth about economics, politics, religion. We want the truth about our fellow men and nations—not propaganda against them, the platform of national or individual advantage is one that brings never-ending strife, but the platform of fair play and justice has room for every individual and nation in the world.

Another thing: The individuals of a democracy can neglect politics only to their peril. It is very easy to say, as in Germany, "I am fed up with politics. Let George (Hitler) do it." Most nations discarded absolute monarchy centuries ago. Dictatorship is a step back. The present war is the result of that step. The only hope for the world is in forward movement. As the world grows more complex the individuals thereof must grow more studious.

Hope for peace and international understanding does not rest with leaders but with the common people. Organized labor in Britain brought back her soldiers from the invasion of Russia after the Great War. Organized labor in England is and has been appealing by every means available to the common people of Germany for a peaceable settlement of injustices. German miners, seamen and railwaymen are said to be antagonistic to the ruling regime which decrees bullets instead of butter. The Siegfried line, pronounced so impregnable, is said to have too much chalk in the cement to stand up in defense and is built so near the Rhine that it floods at flood time.

A nation held together by force looks strong in peace time and democracies look weak. In times of war free men unite and dictatorships are liable to fall apart. In times of stress and strain, in times that try men's souls, free men rise to meet the situation, inspired by faith in the ultimate triumph of justice, but in times of danger slaves weaken and are afraid.

The development of the British market for Canadian poultry is one of the most important trends in recent years. The results of the last few years' exports have had the effect of stabilizing Canadian markets and have been of paramount importance to the Canadian poultry industry.

TESTED RECIPES

TOMATO COCKTAILS
Following are some recipes for tomato cocktails:

Tomato Cocktail (No. 1)
18 ripe tomatoes.
1 cup chopped celery.
1/2 cup chopped onions.
2 tablespoons vinegar.
3 sweet green peppers.
1 sweet red pepper.
1/2 cup salt.
1/2 cup vinegar.

Mash and cut tomatoes, but do not peel. Chop the peppers finely. Mix tomatoes, celery, onions, peppers and salt together. Boil for one-half hour. Strain through a coarse sieve. Add the vinegar and sugar. Seal in sterilized jars.

Tomato Cocktail (No. 2)
1 bushel tomatoes.
1 small head celery.
1/2 cup vinegar.
1/2 teaspoon white pepper.
1/2 cup chopped onions.
4 teaspoons salt.

Boil all together for 20 minutes. Strain, and boil 5 minutes. Bottle and seal.

Tomato Cocktail (No. 3)
1 No. 2 half-can tomatoes, or
1 pint jar home-canned juice.
1/2 teaspoon salt.
1 teaspoon minced onion.
1 tablespoon minced celery.

Mix all together and let stand at least one hour. Strain and chill before serving.

Tomato Cocktail (No. 4)
1 No. 2 half-can tomatoes.
1/2 teaspoon minced parsley.
3 cloves.
1 teaspoon salt.
1/2 teaspoon white pepper.
1/2 teaspoon minced onion.
1/2 teaspoon vinegar.

Add the ingredients to the tomatoes, boil together five minutes, strain and chill.

Betty Brown's Radio Kitchen September 20

Popular Wednesday Morning Feature With Housewives Enters Seventh Season Of Broadcasting With An Entirely New Series Of Recipes And Practical Household Information.

Betty Brown and her ever-popular "Five Roses" Radio Kitchen will be welcomed back on her return to the air over CFCF at 10 a.m. Wednesday, September 20.

Homebakers throughout western Canada have for the past seven years been constant followers of Betty Brown and her fifteen-minute Wednesday morning program of practical recipes and time-saving household hints.

Feminine listeners on Station CFCF are reminded to tune in promptly at 10 o'clock next Wednesday morning, when Betty Brown will present her opening program, featuring recipes and culinary hints. This "Five Roses" Radio Kitchen presentation is heard over a representative group of western radio stations and should prove to be most popular and helpful program to every homebaker.

BEAVER LODGE

SILVER WEDDING ANNIVERSARY

BEAVER LODGE, Sept. 4.—Mr. and Mrs. John Dewar, old-time residents of the Appleton district, received congratulations from many friends on the occasion of their silver wedding anniversary, August 31. Mr. and Mrs. Dewar were married by the Rev. J. E. Duques, Eskine Presbyterian Church, Edmonton, August 31, 1914. The honeymoon was spent travelling overland on the Edson Trail to their home in the Appleton district, where they have resided ever since.

Five children have blessed their union—three daughters, Isabel, Agnes and Mhairi; two sons, John junior and Robert.

The Eternal Feminine Question
Two lady snails were crawling along the top of the wall, when one glanced back.
"Don't look round, dear," she said, "there's a man following us."
"I know," replied her friend. "Is my shell on straight?"

A Tale of a Chimney
A Scotsman and an Englishman fought a duel in a dark room. The Scot, unwilling to go the length of actually taking the other man's life (although the quarrel had been a mortal one), relented, and fired his pistol at the large chimney that was in the room.

His adversary was dead when the doctor arrived.

The SNAPSHOT GUILD

ANIMAL PICTURES

Any barnyard is full of excellent human-interest picture chances... such as this close-up shot of a hen mothering her chicks.

WHEN someone mentions bird and animal pictures, most of us think of zoos, forests, or the African jungle. But—if you live on or near a farm—you have access to a number of fine animal subjects. And, take my word for it, domestic animals yield just as good pictures as wild ones.

Just for the fun of it, why not spend a day picturing farm animals? Go after expressive, human-interest shots, such as a hen mothering her brood, or pigs struggling for position at the trough. Shoot close-ups of a placid, cud-chewing cow, or a husky work-horse—just as if you were taking pictures of a person. Many animals have definite, almost-human expressions at times... and they'll make fine pictures for your album.

Distant shots, showing the animal amidst its natural surroundings, will be disappointing unless it happens to be an incidental figure in a scene. Most focusing cameras

are adjusted to take subjects as near as six feet—many four feet, or even less. Many box cameras can be set for subjects as near as five feet. And, if you slip a portrait attachment on the camera lens, you can get even closer. Or, you can take a shot at normal distance, and have the best part of the negative enlarged to give a close-up effect.

It's not necessary to show all of a large animal, such as a cow or horse. Indeed, the head alone often makes a better picture. Choose the viewpoint which shows the head and expression most effectively—and fire away. Keep the background simple—changing your position when necessary to get distracting objects out of the camera's field of view.

Take your camera to the farm... keep your eyes open... shoot wisely and often. You'll find that any well-stocked barnyard yields splendid picture dividends.

John van Guilder

World Series To Be Broadcast Over CBC

Sponsor Pays \$300,000 For Broadcasting Series in North America

Exclusive broadcasting rights for the 1939 baseball World Series have been signed by the Canadian Broadcasting Corporation and the Gillette Safety Razor Company, who will sponsor the series in the United States and Canada.

Broadcasting the series in North America will cost approximately \$300,000, it is announced by J. I. Stampleman, president of the Gillette Safety Razor Company of Canada Limited.

Announcement of the sale of the broadcast rights to the World Series was made recently by Judge Kenneth M. Landis, high commissioner of baseball.

With newspapermen, photographers and sports writers attending, the Canadian contract was signed by Dr. Stampleman for Gillette and Dr. Augustin Frigon for CBC. Roland Beaudry, spokesman for the network, who has been assigned to do the French announcements during the series, was also present at the signing.

"Announcers who will interpret play-by-play descriptions of the games will be named next week," Mr. Stampleman stated.

The World Series, starting early in October, will be carried over the entire CBC network, which includes 36 stations.

Seek and Ye Shall Find
The newspaper correspondent was fed up with Hollywood. After a year of trudging the Hollywood beat, the weary scribe and his wife were about to set off on a holiday. Someone asked him where they were going.

"We're going to paste a big picture of Clark Gable on the outside of the car," he replied, "and drive until someone says, 'Who's that?' That's where we're stopping."

WILHELM KEITEL

In one of the six Germans named by Adolf Hitler to a ministerial council to act during the present war, General Keitel will occupy the position of chief of the armed forces.

RUDOLF HESS

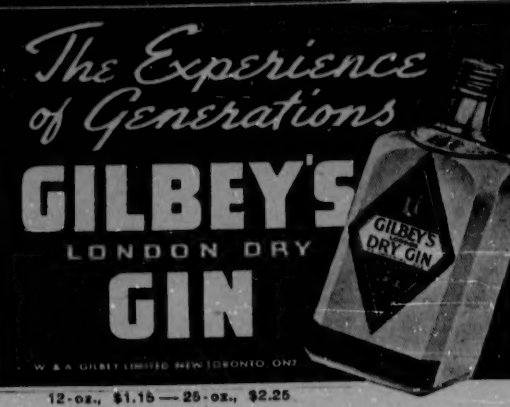

Has been appointed deputy Fuehrer of the Nazi Party on the ministerial council set up by Adolf Hitler during the present war with Poland.

Never Known the Thing
"Have you any objection to having a whisky and soda, Pat?"
"Well, I've never had one before in my life."
"What, never had a whisky and soda?"
"No, and objection."

"Then it goes like this!"—The Bulletin, Australia.

AERONAUTICAL TIT-BITS

By J. W. Neil

THE F.E.2D.

From "The Clouds Remember," by Major Oliver Stewart and Lennox Bridgeman (Gp. 0-10-0).

A cow, a blunderbuss, a domestic pet, a kitchen range with wings on, a threshing machine, a loutish, lurching, heavy, clumsy old but, a bait and a joke; yet among the aeroplanes of the last war period, undoubtedly one of the great world's workers. This was the F.E.2B, the forerunner of the F.E.2D, and creator of the essentially big F.E. qualities.

Look at this machine, and note the tiered nacelle, boldly opening its enormous mouth to gulp down as much drag as possible and then to ask for more. Look at the wires and struts, the undercarriage, the gun mountings, and consider whether there has ever been or ever will be an aeroplane to express more openly and visibly its contempt for streamlining and all that goes with it.

In a squadron of F.E.2B's in which I served for a short time during the war, I obtained one impression which has remained with me ever since—that of a certain pilot of immense stature and girth, one of those enormous men who are yet well proportioned and do not look freakish but merely enormous, sitting upright in the pilot's cockpit of an F.E.2B, on photographic patrol. There he sat, with Archie bursts all around him, an immense figure in a bright yellow leather coat, facing the rush of air, presenting his whole enormous frontal area to it, apparently impervious to the crash of shells about him, sitting up there in mid-air, a monument of a man, an Epstein-like carving out of solid rock, miraculously supported on an exposed seat by a fantastic contraption. That pilot was the personification of the F.E.2B, and of the F.E.2D, which was the same machine with a bigger engine. I do not know what happened to him. When I had gone to a scout squadron we were occasionally caused upon to scout the F.E.'s, and there he would be, again sitting in his exposed box with a Lewis gun beside him, the queer F.E. mounting, and an observer squatting down in front. And all around would be Archie bursts and gun fire.

He was one of the first, if not the first, to introduce the circular tactics which the F.E.'s found so useful. When these machines began to be outclassed by the single-seater fighters of the enemy, they found that their opponents were able, by the use of their superior powers of manoeuvre and their superior performance to place themselves under the tails of the F.E.'s, from where they could shoot at them in comfort without the F.E. being able to return the fire. It was essential for the F.E.'s to devise a method of protecting their tails, and they did it by the "roundabout" method. When they were seriously attacked they formed a ring and went round and round, each sitting on and protecting the next one's tail. In this roundabout formation the F.E.'s were well-nigh invincible. In a forward direction they could bring a considerable amount of fire to bear, and in a rearward direction they were protected by the F.E. next behind. The only serious trouble with these roundabout tactics was that they prevented the F.E.'s from getting on with the photographic or reconnaissance work, and if the wind was in the wrong direction the entire roundabout formation gradually drifted farther and farther over enemy territory.

A few words ought to be said here in praise of the F.E. observers. They were frequently seconded army officers posted direct to squadrons from their regiments, with no previous instruction in Britain. An observer was quite comfortable until enemy aircraft were engaged; then he had to stand up, with only his feet and ankles below the gunwale of the cockpit, and work his guns while the aeroplane went through all the intricate manoeuvres necessary in aerial combat. He had to hang on to his guns and their mountings to keep himself from falling out, for this was before the days of harness and there were no parachutes. Frequently an observer was saved from

falling out, particularly when wounded, by the pilot grabbing him. As might be expected from this puny design with the two rather simple cockpits, the F.E.2B and the F.E.2D, gave ample scope for the ingenuity of armament officers and pilots and observers in the invention of gun mountings and some extremely interesting devices were used to give the machine the greatest possible field and volume of fire. This wealth of armament gave rise to a wealth of different methods of using it. But it is of great interest to note that some of the most successful F.E.2B, pilots constituted themselves chief gunner and would go into action and manoeuvre with the object mainly of using forward-firing guns. And if anything in aerial warfare can be said to be comical it was the spectacle of a F.E.2D, blundering after some tiny highly manoeuvrable single-seater and seeking to shoot it down with forward-firing guns. It was as if the dignified old gentleman of the comic papers suddenly turned and went in pursuit of the rude street urchin. And as the street urchin would be astonished if the old gentleman showed a good turn of speed and caught him, so the single-seater fighter pilots must often have been surprised by the agility and pertinacity of the F.E. It must be remembered that the F.E.'s were introduced when the first famous "Fokker Scourge" was rampant, and it was largely due to the F.E.'s and H.I.'s that the Allies regained aerial superiority.

THE LIGHTER SIDE

Noble Thought

Smith is one of those unfortunate people tied to a nagging wife. Being a temperate man, he did not fly to the beer parlour and vendor to drown his troubles, but joined an ambulance squad.

Strangely enough, at the first examination the doctor put this question to him: "Now, Smith, you are a married man. Suppose you came home and found your wife hanging, what would you do?" "I'd do all I could to help her, sir," was Smith's prompt but rather ambiguous reply.

The Practical Method

A small boy asked his father how wars began.

"Well," said the father, "suppose Britain quarrelled with France."

"But," interrupted his mother, "Britain would never quarrel with France."

"I know," he answered, "but I am taking a hypothetical instance."

"No, I am not," he answered. "Yes, you are."

"All right, Dad," said the boy, "I think I know now how wars begin."

Game Loser

Little Tommy came home from Sunday school with distressing news that he had lost the penny given him for the collection.

"But that is three Sundays running you have lost your penny," his mother complained.

"Well, I must win sooner or later," Tommy replied. "Fred's luck can't last forever."

To Be Continued

For the third week in succession the dentist's surgery maid reported that there was a man in the waiting-room who declined all invitations to see the dentist.

"Perhaps he's nervous," said the dentist. "I'll go and see him." So he entered the waiting-room and asked if he could be of any service.

"No, thank ye," replied the visitor blandly. "I just dropped in because, ye see, I'm reading a serial in one of your papers."

Hurried Horse

The reckless motorist reversed and killed a fowl which darted across the road. An old woman who lived in a cottage nearby was quickly on the scene. Her face was stern, her features hard and forbidding.

Before she could utter a word, the motorist plunged a hand in his pocket and tendered her a five-spot.

"Here, my good woman," he said, apologetically, "this will square matters."

This Blessed State

The Henpecks had just arrived in the theatre when Mrs. Henpeck turned to her husband.

"Is your seat comfortable, dear?" she asked solicitously.

"Quite, my love," replied the startled Henpeck.

"And you have a good view of the screen?" was the next question.

"Perfect," Henpeck answered.

"Does that awful noise outside worry you?" inquired his wife.

"No, darling," returned the little man. Henpeck changed tone, suddenly.

"Then change seats with me, you selfish little wench!" she snapped.

No Trouble at All

Gent: "Have you seen my waistcoat, Stephens?"

Valet: "You have it on, sir."

Gent: "So I have! It's a good thing you told me or I should have gone away without it!"

WHEN USING WILSON'S FLY PADS

READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

Each pad will kill flies all day and every day for three weeks. 3 pads in each packet. 10 CENTS PER PACKET at Drugists, Grocers, General Stores. WHY PAY MORE? THE WILSON FLY PAD CO., Hamilton, Ont.

Your Best Investment

is your life insurance. It will protect your wife and family and take care of you when you retire.

Popular Sexsmith Girl Is Claimed By Death

Reta Gillies, Daughter of Hugh Gillies, Passed Away On Saturday—Possessor of A Sweet And Winsome Personality, Desired To Be Of Service To The Community—Many Attend Funeral Held On Monday—Classmates Present In A Body.

SEXSMITH, Sept. 12.—The town and district were very much shocked on Saturday last on learning of the death of Marguerite Reta Gillies, second daughter of Mr. Hugh Gillies and the late Mrs. Gillies. Reta, as she was known, was born December, 1924, and lived practically all her life here. She attended the Mount Star school, also went to the Llanarthney School for Girls in Edmonton, and last year was a student in the High School, Grande Prairie.

The funeral was held in Sexsmith United Church on Monday, September 11, Rev. E. Rande, minister of the church, and Rev. Willis Cann of Grande Prairie officiating. The church was filled to overflowing, with as many more outside. The casket was draped with flowers, given by the many friends of the family.

Miss Reta's classmates at Grande Prairie High School attended in a body.

Mr. Cann, who preached the sermon, said in part: "These lives of ours on earth are studded with frustrations, disappointments, and sorrows. We have our moments of achievement, realization, and joy. It is true, but we can never be sure how long those moments will last. It often happens that in the midst of our rejoicing over the accomplishment of a long-desired end, some dark shadow falls across the human scene, and then we realize how tenuous is human life and all human relations. The circumstances which bring us together today is a sad reminder of the uncertainty which ever links itself with human life. We have met in sorrow and sympathy; sorrow over the loss of one so young, and sympathy with those upon whom this loss presses most severely. Our young friend was in sight of a fuller life. She was standing on the threshold of a larger activity. Her education was nearly completed. For years she had striven to reach the goal only to find that the goal was reached. She had a sweet, winsome personality, a gentle disposition, and a desire to be of service to the community. Early left motherless, the mother's place was very ably taken by the girl's aunt, who was a second mother to the girls. To the father and aunt, as well as the sisters, this separation comes as a deep sorrow which fails to find expression in words."

Led by Mrs. W. R. Roberts at the organ, the hymns "Abide With Me" and "Rock of Ages" were sung.

Burial took place in the Emerson cemetery and there was a large number of cars in the funeral cortege. Post No. 60 of the Canadian Legion attended in a body and each member pinned a poppy on the casket, both parents being veterans of the Great War.

The pallbearers were: Messrs. Ben Wyman, Wm. Card, Jack Thorp, Walter Spry, Buster Brown and Tom Ryley.

Those left to mourn her loss are her father, two sisters, Willamina and Maizie, and an aunt, Miss Nan Gillies.

The sympathy of the community is extended to the family in their great loss.

Floral tributes were from: Mr. and Mrs. Jas. Foote; Mr. and Mrs. Ed. Morgan; George Fraser; Ken and Irene Nelson; Al and Dorothy Harp and family; Mr. and Mrs. H. Baker and family; Mr. and Mrs. T. Smith and family; Mr. and Mrs. Ira Card and family; Bob Card; Marie, Milly and Max; Mr. and Mrs. Gordon Hamilton and family; Mr. and Mrs. W. R. Roberts; Mr. and Mrs. Walter Spry; Walter, Jack, Violet, Olive and Edith; Florence Oliver; Mr. and Mrs. Stalberg; Sorenken family; Mr. and Mrs. Adolph Sorenken; Mr. and Mrs. S. H. Warren and family; Mr. and Mrs. B. Longson; Mr. and Mrs. Weicker; Dad, Aunt Nan, Billie and Maizie; Mr. and Mrs. Henning and family; Mr. and Mrs. H. A. Gauchy and family; Mr. and Mrs. D. Wyman; Hyson and Ben; Nellie and Jack Neys; Tommy, Louise and Edith Ryley; Grande Prairie High School Graduates' Class; Mr. and Mrs. Chas. Williamson; Mr. and Mrs. Chas. Smith; Royal Bank, Sexsmith; Grande Prairie High School students; Thorpe family; Mr. and Mrs. Suek; Mr. and Mrs. H. H. Conrad and Joan; Mr. and Mrs. W. Foster; Mr. and Mrs. T. Fairbairn and family; Mr. and Mrs. McMullan and girls; Jack, Becky and Joyce Charney and Mr. McDonnell; Mrs. J. F. Barrette and family; Johann, Thelma and Robert; Mr. and Mrs. Robert Johnstone and family; Mr. and Mrs. W. A. Brown, Buster and Delphine; Mr. and Mrs. J. B. Foster; Ray and Doris; Duncan brothers; Rose and Johnny; Mr. and Mrs. Stanley Moore; Sexsmith Branch of Canadian Legion; Mr. and Mrs. Ed. Grant; Jim McDonald; Mr. and Mrs. Jack McKenzie family; Mr. and Mrs. W. S. Johnson; Mr. and Mrs. M. C. Logan; Dorothy, Bob and Mrs. Shaw; Mr. and Mrs. Bert Balderston; June Thomson; Blanes family; Don and Bill Alexander; Mr. and Mrs. Art Fenton; Mrs. Jack Barr; Mr. and Mrs. J. E. Plain; Fred and Altha McNaught; Gordon, Freddie and Ruth; Guardian Oil Corporation.

J. B. Oliver had charge of funeral arrangements.

Deputy Minister and Superintendent of Schools

Munson Wheat Club Boys' Achievement

Left: DON SHARPE AND HIS PLOT. Right: DON AND DEAN SHARPE

This photograph illustrates what the Alberta Junior Wheat Clubs, sponsored by the Alberta Wheat Pool, are accomplishing throughout the grain area of the Province. The picture shows the Sharpe twins, Don and Dean, twenty-year-old sons of Mr. and Mrs. W. R. Sharpe, of Munson, with their wheat plots.

District Agriculturist, A. J. Charnetaki, who inspected the plots recently, gave them 99 per cent marks — almost perfect farming.

The young farmers are members of the Drumheller Junior Wheat Club.

The Schools Of Agriculture

The Schools of Agriculture have been important institutions in the realm of agricultural education in this province since they were first established in 1913. At that time three schools were open — at Olds, Vermilion and Claresholm — to be followed at a later date by schools at Raymond, Youngstown and Gleichen. All of these schools operated for some time, but subsequently it was found necessary to close all except those at Olds and Vermilion.

The Olds School has operated continuously since it was opened, except for the 1918-19 term, when the school was used as a "flu" emergency hospital. The Vermilion School has been closed three winters since 1913.

During this period the main purpose of the schools has been to train young men and women in agriculture, the men as farmers and the women as rural home-makers. To indicate that this policy has been justified, it is estimated that over 99 per cent of the students returned to the farms, while about 5 per cent go on to universities for higher professional degrees, and the remainder choose work in other fields. The objection raised that the schools would educate the students away from the farm is entirely unfounded, and indeed the tendency is actually the reverse. At all times the courses offered to the students encourage them to make agriculture their life work.

The practical nature of the courses, emphasizing as it does such subjects as field crops, soils, live stock, poultry, farm mechanics, blacksmithing and carpentry, gives to the students an insight into farm problems, and it is the constant aim of the school officials to keep these courses as nearly up to date as possible. Thus in recent years farm electricity and diesel engines are taken up in the course of farm mechanics. The Home Economics course features those subjects most required by rural home-makers. Foods and nutrition, sewing, home nursing and household administration are among the main courses for the women. Opportunity is also provided for the women to take poultry, horticulture, dairying, etc., and all students are required to take English, Civics, and certain other cultural courses.

The academic requirement for admission to the schools is merely the ability to read and write English. Anyone 16 years or over who has sufficient command of English to profit from instruction may attend. In the early years of the schools the average grade of the students entering was seven, but with the improvement of the education, very few students attend now who have not completed at least grade eight, and a great many of them have finished most of their high school training.

The regular course consists of two winter terms, each of about five and one-half months' duration. A special "two in one" course is also offered for students who have completed their grade eleven. This latter course, because of its shortness, does not permit full advantage being taken of the practical training offered. There are no tuition fees for Alberta students, but the fees for library, caution money, student union and books, etc., amount to about \$13 for the year. Board and room is available in comfortable up-to-date modern dormitories at the reasonable sum of \$24 per month.

Life at the Schools of Agriculture is a valuable experience for everyone. The associations and contacts which students make with one another are valuable assets in their future life. The social side of the training and the various student activities exert an improving influence upon the average student, possibly to a greater extent than that which most education institutions do. Remarkable changes in the police and demeanor of the students is observed after two years in the institution. They develop a certain confidence as a result of the training they receive and the experience they gain in speaking before a crowd. Public speaking, debating, etc., although extra curricular activities, are encouraged and considerable instruction is given by the staff in these subjects. It has been noticed that a large number of the graduates from the Schools of Agriculture are now taking a very important part in community enterprises and are using the training they receive at the schools to provide leadership in rural districts.

In association with each School of Agriculture there is a school farm on which are grown the crops most suited to the district and which are used as source material by the students during the winter. Besides the field crops, the farms maintain herds of purebred live stock. At Olds fine Percheron horses are kept and outstanding herds of Shorthorns and Ayrshires are maintained. York-shire swine and Hampshire sheep complete the live stock at Olds. The Vermilion School maintains Clydesdale horses, Shorthorn and Aberdeen Angus cattle and Yorkshire swine, as well as Suffolk sheep. All of this stock is used for demonstration purposes and the students are thereby brought into contact with high quality individuals of the various breeds. This stock is also a source for breeding stock for Alberta live stock breeders.

The Schools of Agriculture are also used to a considerable extent during the summer as meeting places for conventions, short courses, field days and local groups. The beautiful grounds surrounding each school attract many visitors and large numbers of people come to the schools to see the live stock and the field crop plots. In recent years the summer activities of the members of the staff have been increased and greater importance is being placed on extension work from the schools.

The Schools of Agriculture open for their fall term on Wednesday, October 18. Young men and women in this province who are interested in any way in agriculture would do well to consider attending one of the Schools of Agriculture this year. The training they will receive will stand them in good stead no matter into what field their life's work may take them, and if they return to the farm, as most of the students do, the instruction in scientific methods they have received will be most valuable in assisting them to solve the many problems that will arise. The successful farmer of today seizes every opportunity available to improve his knowledge and his chosen profession, and the young men who will be the farmers of the future should recognize the opportunity that the Schools of Agriculture provide that will assist them to become more successful agriculturists.

Mrs. James Kerr Of Grande Prairie Answers Last Call

Came To Grande Prairie in 1915—Played Her Part In Community—Forbes Presbyterian Church Was Packed To Capacity At Funeral Service—Many Floral Offerings Received—Sympathy Of Large Circle Of Friends.

Another link between pioneer days and the present was snapped when Mrs. James Kerr of Grande Prairie passed away on September 4. Her death came as a terrible shock to her many friends in the entire district.

A woman of the highest character and charitable to a fault, Mrs. Kerr played her part in a quiet way in the community.

Born in Derby, England, Mrs. Kerr came to Canada with her parents, Mr. and Mrs. Stephen Tassington (both deceased) in 1912, settling in the Clover Bar district near Edmonton. In 1915 she came to the Grande

Prairie district over the Edison Trail.

Funeral Service
The funeral was held on Thursday afternoon, September 7, services being held in Forbes Presbyterian Church, Rev. C. E. Fisher officiating.

The church was filled to capacity with sorrowing friends who came to pay their last respects to a highly esteemed pioneer.

Those left to mourn the loss are: Husband and son, Stanley. Others surviving are: one brother in England and three brothers in the Grande Prairie district—James of Flying Shot, Joel at the Grande Prairie, and William, living north of Grande Prairie.

Pallbearers were: D. W. Pratt, Walter Roberts, Herb Brough, Tom Rooney, W. T. Robinson and S. Moore, all old friends of the family.

Mr. Fisher based his address on the passage in Matthew where Jesus replies to the question put to Him by the Sadducees regarding the resurrection.

Said Mr. Fisher: "What light does Christ throw on the problem of the future state? He does not give details, but reaffirms that life is continuous, and that it is different. Christ bases His statement on two things—the character and the power of God."

Using the story of Abraham as an example, Mr. Fisher said this man was called the friend of God. He who left all to follow God, was not deserted by God at the last. If there be no heavenly Father, then there are no children of God and no heavenly home. If God be the Father, then the question is solved.

Continuing, Mr. Fisher said: "God manifested His power in the resurrection of Christ. Christ lives because God was His God. The character and power of God will also guarantee our continued and complete life, but we must respond to both to be children of the resurrection."

There were many floral offerings, revealing the sympathy of the large circle of friends.

There is no death. They only truly live who pass into the life beyond and see This Earth is but a school preparative for a larger ministry.

We call them "dead". But they look back and smile At our dead living in the bonds of flesh. And do rejoice that in so short a while Our souls will slip the leash.

There is no death. To those whose hearts are set On higher things than this life doth afford.

How shall their passing leave one Who go to join their Lord? John Ozenham.

The casket was covered with beautiful floral tributes from: Roberts family; Mrs. Agnes Piper; Mr. and Mrs. C. McKinney and family; Mr. and Mrs. R. Keys; Harry and Eva Newton and Bob Hook; Mr. and Mrs. Alf Field; Mr. and Mrs. Lee Strang; Mr. and Mrs. Gordon Orr; Mr. and Mrs. Smith Moore; Mr. and Mrs. A. Stevenson; Oldtimers' Association; J. Watson and family; Mr. and Mrs. J. Bird and boys; Chrissie, Joe and children; Mr. and Mrs. Abe Smith and family; Mrs. E. Peebles; Mr. and Mrs. F. R. Blair and family; Duffy family; Rev. and Mrs. C. E. Fisher; Jim and Lily; Joe and Nora and families; Mr. and Mrs. F. Guthrie and family; Mrs. Mills and family; Bob Field; Mr. and Mrs. Woolven; Florrie and Jim and family; Jean and Mayra; Mr. and Mrs. C. Miller; Lona Ward; Jim and Stunt; Mr. and Mrs. P. Thompson and family; Mr. and Mrs. Ray Mitchell and May; Mr. and Mrs.

Brough and Ethel, Mr. and Mrs. T. Tate and family; Mr. and Mrs. Flash and Muriel; Mr. and Mrs. E. Law and family; Irene and Elizabeth; Mr. and Mrs. L. C. Porteous; Mr. and Mrs. Ed. Lyne and family; members of east of "Charlie's Aunt"; Cap. and Mrs. J. B. Oliver and family; Mr. and Mrs. A. Dunfield; Mr. and Mrs. Robt. Smith and Mrs. J. Haskstad; Mr. and Mrs. Broughton; Crosby family; Dolly and Gloria; Partlow family; Mr. and Mrs. W. Golen and family; Mr. and Mrs. A. R. Murphy; Mrs. Geo. Bousfield; Mr. and Mrs. J. M. Kerr; Mr. and Mrs. O. Kenney and Mrs. T. Jecks.

CARD OF THANKS

Mr. and Mrs. Sam Hunter and family wish to thank their many kind friends and neighbors, also the staff of the Grande Prairie Municipal Hospital and Dr. O'Brien, for their kindness and many floral tributes during their recent bereavement.

CLAIRMONT W.M.S. MEETING

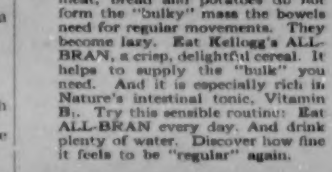

The W.M.S. of Clairmont United Church will hold their autumn thanksgiving offering meeting at the home of Mrs. W. J. Callister on Thursday, September 21, at 3 p.m.

There will be special speakers in attendance. Everyone is cordially invited.

● You can't shine at work or play if you're troubled with constipation. And common constipation is not a necessary evil. Too little bulk in your diet often causes it. Foods like meat, bread and potatoes do not form the "bulky" mass the bowels need for regular movements. They become lazy. Eat Kellogg's ALL-BRAN, a crisp, delightful cereal. It helps to supply the "bulk" you need. And it is especially rich in Nature's intestinal tonic, Vitamin B₁. Try this sensible routine: Eat ALL-BRAN every day. And drink plenty of water. Discover how fine it feels to be "regular" again.

ALL-BRAN KINDLES YOUR ENERGY

Made by Kellogg in London, Canada. At your grocer.

DEEP-ROOTED IN FRIENDLY SOIL!

A great tree gains its stature, builds its strength and bears its fruit through years of growth in friendly ground. So do the enterprises of man.

Like the great tree, the co-operative ideal has taken deep root in Alberta soil and is growing stronger each year.

Alberta Pool Elevators has risen to a position of predominance because of its adherence to the co-operative ideology, its alertness and energy in advancing farm interests, and its open policy of doing business.

The co-operative way of grain marketing is the correct way, the system is essentially sound and it should be extended and strengthened.

Farmers can gain power, prestige and added security only by developing their own co-operative businesses.

Alberta Pool Elevators is a purely Alberta Farmer-owned co-operative.

Your patronage is respectfully solicited.

Alberta Pool Elevators

Local and General

J. E. Prouse of Grande Prairie returned recently from University Hospital, Edmonton, where he was treated for war disabilities.

Mr. and Mrs. William Schamhorn of Notikewin are visiting Mrs. Schamhorn's parents, Mr. and Mrs. "Moose" Neils of Beaman. Mr. Schamhorn's brother Gus is also in town. They expect to stay about a month.

Mrs. C. C. Fleming has just received word of the death of her sister-in-law, Mrs. Dewar Thomson, which occurred at Mrs. Thomson's home in Milton, Ontario. Mr. Thomson was an oldtimer of Grande Prairie and Mrs. Thomson also lived here for several years. Both are widely known in the district.

Norman Prouse, twelve-year-old son of Mr. and Mrs. J. E. Prouse of Grande Prairie, was taken to the Municipal Hospital on Tuesday, believed to be suffering from appendicitis.

W. A. Hague, postmaster at Wolvenden, was a business visitor in Grande Prairie on Wednesday. He stated that the weather was being held in his area through wet weather.

The following from East of the Smoky were visitors in Grande Prairie on Friday of last week: T. McFarly, P. Doorkson, A. Gumbay, A. Matlock, Harold Matlock, W. Peterson and Bill Sargent.

Alf Siple of Fort St. John passed through Grande Prairie the beginning of the week on his return trip from Calgary, bringing with him his mother, Mrs. McColloch, from Faust and his little daughter, Beth, who had been visiting his grandmother for three weeks.

J. K. Anderson of Calgary, representing J. & J. Taylor, Toronto Safe Works, is covering the Peace River.

Marie Henning, Katherine Philip, Jack Fisher of Grande Prairie and "Billie" Gillies of Sexsmith left on Tuesday's train for Edmonton, where they will enter normal school.

BORN AT MUNICIPAL HOSPITAL

To Mr. and Mrs. Arthur Swanson, Grande Prairie, September 5, a daughter.

To Mr. and Mrs. T. A. Parlee, Wainman, September 11, a son.

To Mr. and Mrs. A. F. Blimke, Grande Prairie, September 12, a daughter.

At the 19th Hole

Last Sunday the final game in the Richmond Hill Golf and Country Club championship first flight was played between Dr. L. J. O'Brien and Earl (Buck) Smith. The match was delayed on account of the latter's transfer to Spirit River. "Peewee" put up a hard battle but finally succumbed to the Doctor's steady game, 5 and 4.

The Kerr Challenge Button has changed hands quite frequently the last week or two. It changed hands twice in one day. Mrs. Sinclair won it from Mrs. Fleming one morning with a card of 47, her lowest to date. In the afternoon Mrs. Fleming challenged Mrs. Sinclair and won the button with a card of 49. Come on, you ladies, let's have a new challenger.

The ladies' club championship for the Herman Treble Cup will be run off next Sunday, September 17, with an entry of sixteen players. Those winning their first game will go into the championship flight and the losers into the first flight. The games will be nine holes match play, and the finals in both flights 18 holes. If more convenient, any games can be played before Sunday. First mentioned player to make arrangements for time of match. On account of no qualifying round being played and lateness of season, the draw committee decided to place all players' names in the hat and the following is the result of the draw:

Mrs. McMillan vs. Mrs. Neilson.
Mrs. Sinclair vs. Mrs. Butchart.
Mrs. Powers vs. Mrs. Fleming.
Mrs. Cobb vs. Mrs. Cundal.
Mrs. Grierson vs. Mrs. Christie.
Mrs. Galway vs. Mrs. Philip.
Miss Ward vs. Mrs. Carro.
Mrs. Archibald vs. Miss Poppen.

FALL is here!

Now is the time to prepare for the winter. Our stock is now complete and there are plenty of goods to choose from, more than that, they are priced to meet present conditions. Here are just a few items of quality goods attractively priced.

Work Shirts 95c up

For Fall weather, etc. A good selection of colors in stock.

Windbreakers

In Dosskin, Wool Freize and Meltons. Various colors and priced to sell.

\$2.50 up

Men's Stock Suits \$19.50 up

We have these in the latest colors, style, stripes and checks, etc. In 2-Piece and 1-Piece Suits.

WADDELL'S

"WHERE YOU GET SERVICE WITH A SMILE"

TESTED RECIPES

LUNCHING AT HOME

Lunch at home does not need to be a makeshift affair with yesterday's left-overs. A dainty, tasty lunch which the family are pleased to be able to get home for, can be worked into a busy morning just as easily as a slap-dash meal. Take this menu for instance. Casserole of salmon, hot biscuits, a simple green salad and fruit—it gives a new meaning to the old refrain, "there's no place like home."

Casserole of Salmon
2 tablespoons quick-cooking tapioca.
1 cup canned salmon, flaked.
1 tablespoon onion, chopped.
1 cup milk.
1/4 teaspoon salt.
Dash of pepper.
1 cup celery, diced.
1/2 teaspoon melted butter.
6 to 8 unbaked baking powder biscuits, rolled 1/4 inch thick.
Combine ingredients in order given. Turn into greased casserole; bake in hot oven (425° F.) 25 minutes, stirring mixture twice during first 10 minutes of baking. Place biscuits on top of salmon mixture after it has baked 10 minutes; return to oven, bake 12 to 15 minutes longer to bake biscuits. Serves four.

Baking Powder Biscuits
2 cups sifted flour.
2 teaspoons baking powder.
4 tablespoons butter or other shortening.
1/2 teaspoon salt.
2/3 cup milk (about).
Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening, add milk gradually until soft dough is formed. Roll 1/4 inch thick on slightly floured board. Cut with floured biscuit cutter. Bake in hot oven (450° F.) 12 to 15 minutes. Makes 12 biscuits.

BREED APPLES FOR NORTHWEST

A great deal of attention has been paid by the Horticultural Division, Dominion Experimental Farms, to the breeding of apples for various parts of Canada. One project has been the creation of hardier kinds for the Northwest and very cold regions. For this purpose hybrids between the Siberian crab apple and commercial varieties have been employed. The work has progressed to the point of sending out a number of "third" crosses for trial. The "first" crosses were all very small crab apples but they exhibited a number of very hardy progeny. The "second" crosses, in reality a first generation back cross, exhibited less hardness but increased size and quality. Several of these, however, showed sufficient hardness to warrant the continuation of the experiment. About one hundred "second" back crosses or "third" crosses have been fruited, exhibiting full apple size and commercial quality. Several of these appear to possess more hardness than the "second" crosses. While this work was started for the Northwest, "third" crosses appear promising as hardier sorts for the main fruit regions.

THE LIGHTER SIDE

Contentment's Winding Way

An American in England was giving some illustrations of the size of his country.
"You can entrain in the state of Texas at dawn," he said impressively, "and 24 hours later you'll still be in Texas."

Eat Together or Never

A Scotsman, who was playing golf, paused to pull his handkerchief out of his pocket and a set of false teeth fell to the ground.
"These are yours, sir," said the caddy, picking them up.
"They're no mine," said the Scotsman. "They're Maggie's. I tak' them wi' me so Maggie canna eat between me!"

What's Wrong with You

The confirmed grouser entered the golf club smoke-room and complained bitterly to all and sundry about the number of worm casts on the last green.
"Epping the club secretary in a corner he bustled over and said, loudly, 'Isn't this the time of year that you treat worms?'"
"Yes," said the secretary, quietly, "what will you have?"

It's Easy

The old sea captain was taking on new hands. Of an especially stupid-looking recruit he inquired, "How can you tell starboard from port?"
"By the label on the bottle," was the reply.

AIRPORT NEWS

The town of Grande Prairie has commenced work on the airport. R. Burgess is in charge of a crew of men who are cutting brush and removing stones from the field preparatory to grading and levelling. Danny Driscoll, co-pilot of the Yukon Southern Air Transport, put in some time flying the Fokker Monomay and Tuesday, practicing landings.

Sheldon Luck landed with the Yukon King from Vancouver early Sunday afternoon, having for passengers Mrs. L. J. O'Brien, Miss M. Morrison and Mrs. J. Charters. Flying direct from the coast, they reported a fine trip, which was made in one hour and twenty minutes.

Two planes were necessary to handle the passengers on Wednesday.

LATEST NEWS FLASHES

LONDON, Sept. 12.—Dealing with the formation of the Allied supreme war council, the Times says: "It is further proof to the world of the determination of Britain and France to win the war. One more weapon of victory has been added to the arsenal. The Polish people, as well as the French and British, have assurance that no lack of unity in strategy or purpose will impair the concentration of the whole resources of the west upon the prosecution of the war."

PARIS, Sept. 13.—British troops were reported in French military dispatches Wednesday to have entered action with the French against the Germans on the western front for the first time in the war. French advisers said "a great number of well-equipped British troops" were participating in combat. French tanks and armored cars were reported to have reached the outskirts of Saarbrücken, thrusting immediately into the suburbs. This success was said to have hammered a wedge into the Siegfried line at its strongest point. Fall of the city would give the Allies control of the Saar mining basin, one of the world's most productive coal fields.

C.W.L. BAZAAR IN OCTOBER

The monthly meeting of the C.W.L. was held at the home of Mrs. C. McConachie, 1001 10th St. S.W., on Wednesday. The C.W.L. bazaar in October, place and date to be announced later.

KNIGHTS OF THE GRIP

The following knights of the grip are making their fall rounds of the territory: A. Sharp, representing Condon Marsh; Joe Queller, Tuxedo Coffee Mills, Calgary; Jas. Garrett, Walter Woods, Winnipeg; Harry Douglas, Blouey-Henry, P. Griffith, Metals Limited, Dan O'Rourke, independent Biscuit Company; T. R. Hessler, McLaren's Western Ltd.; Bill Dean, crockery.

HOME SAFETY COOPERATION

EDMONTON.—"Last year more persons died of home accidents than were killed on the highways. It is hard to believe, we do not want to think of homes as being hazardous and dangerous places to be," says Mary May Wynne.

"Mother must not put pins in her mouth while she dresses her children, unless she wants the child to believe that pins are all right. Father must not take Mary to school on the handlebars of his bike, unless he wants the child to believe that is right. We teach safety by example."

"Many children in our schools were born with trouble, beautiful bodies. Some accident was permitted to maim them when these children were too small to provide for themselves."

"While women must assure the leadership in home safety, men have their part. Father should help plan for family safety. He can keep equipment in order; he has the physical strength to do things that mother cannot touch. Home safety is the result of 100 per cent family co-operation."

"Safety in the home is not the result of spurts. It can come about only by effort day by day. Every day is important. Today is the day, and this hour is the time to remember what safety means."

NOTICE TO CREDITORS AND CLAIMANTS

In the estate of Napoleon Guerin, late of Spirit River, Alberta, farmer, deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Napoleon Guerin, who died on the 2nd day of September, A.D. 1931, are required to file with the undersigned, the late of Spirit River, Alberta, Executor, by the 31st day of October, 1939, a full statement, duly verified, of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated this 14th day of September, A.D. 1939.

LAWLOR & Sissons, Solicitors for the Executor, Grande Prairie, Alberta.

WAR MOVES ON THE WESTERN FRONT
This map shows the theatre of war on the German western front. France reports continued advance into German territory concentrated in the Saar basin.

OTTAWA, Sept. 13.—In a rush of work that ended at the clock was within a few minutes of midnight, the House of Commons finished the work of its special war session Tuesday night. In the five days that the House sat it has (1) Declared a state of war; (2) Passed a war vote of \$100,000,000; (3) Imposed war taxation to the point of sending out a number of munitions and supply. Wednesday the House met for the first time since the declaration of war. The parliament did not make any definite move toward an overseas expeditionary force nor take any action toward any kind of conscription law of war, industry or man-power. The conduct of Canada's part in the war against Germany was left to Prime Minister Mackenzie King and to cabinet as the parliament prorogued until next January regular session.

Bank of Montreal Crop Report, 12

MONTREAL, Sept. 7.—Bank of Montreal crop report, No. 12, issued today, is as follows:

General

Good progress has been made with the harvesting of the grain crops of the province. The weather has caused delays in Manitoba and in parts of Saskatchewan. Threshing is well advanced in Manitoba and is general in Saskatchewan. In southern Alberta and the Peace River district threshing is under way but elsewhere in the province little has been done. While wheat yields are extremely variable, outturns in most districts are higher than expected and the grain is reported to be of good quality. Good average yields are being obtained in Manitoba and Alberta. Heat and drought caused considerable damage in Saskatchewan, but except in the south-east district, where crops are practically a failure, wheat yields generally will be fairly satisfactory.

In Quebec province crops are maturing rapidly under good weather conditions and prospects are favorable for heavy yields of all the main staples. In Ontario grain, hay and root crops are satisfactory, peaches, grapes and late apples abundant, tomatoes and corn crop, and the tobacco crop of average weight and quality.

In the Maritime Provinces crop prospects are favorable. An excellent crop of hops is being picked during the past two weeks owing to continued lack of moisture. An average crop of grain is indicated. In British Columbia grain crops are maturing rapidly under good weather conditions and prospects are favorable for heavy yields of all the main staples. In Ontario grain, hay and root crops are satisfactory, peaches, grapes and late apples abundant, tomatoes and corn crop, and the tobacco crop of average weight and quality.

In the Maritime Provinces crop prospects are favorable. An excellent crop of hops is being picked during the past two weeks owing to continued lack of moisture. An average crop of grain is indicated. In British Columbia grain crops are maturing rapidly under good weather conditions and prospects are favorable for heavy yields of all the main staples. In Ontario grain, hay and root crops are satisfactory, peaches, grapes and late apples abundant, tomatoes and corn crop, and the tobacco crop of average weight and quality.

Alberta

About 75 per cent of the wheat crop has been cut under favorable weather conditions; early threshing returns indicate higher yields than anticipated, with grades one to three northern predominating. Cutting of a light crop of coarse grains is well advanced. Pastures are drying up, but the crop of winter feed is anticipated. Sugar beets are satisfactory.

Saskatchewan

While rains have caused some delays, cutting is practically finished and threshing is now general. Threshing returns indicate the yields and grades of wheat to be better than were anticipated. Crops in the southeast district are practically a failure, but elsewhere fairly satisfactory yields are being obtained. Coarse grain crops are fair.

Manitoba

Although wet weather has caused several delays, threshing is now well advanced. Wheat yields generally are somewhat higher than expected and indications are that the total production will be greater than that of last year. While coarse grains are light, no shortage of feed is expected. Pastures are in good condition.

Provinces of Quebec

Eastern Townships and Ottawa Valley.—Cutting of grain is general; indications point to a good yield of high quality. Peaches are holding up well. Roots are progressing favorably and give good promise. Potatoes are in good condition and the crop will be above average in most districts. Canning corn has suffered damage from pests, which will reduce the marketable yield. Tomatoes are plentiful. Reports indicate the tobacco crop will be in excess of last year and of good quality. Early apples are plentiful and an average crop of the later varieties is anticipated.

Lower St. Lawrence and Lake St. John District.—Cutting of grain has commenced and a satisfactory yield

commenced and a satisfactory yield of good quality is indicated. Pastures are in very good condition. Potatoes and other roots are doing well and outlook for good crops is promising. Blueberries and other small fruits are plentiful.

Ontario

Harvesting has progressed rapidly under favorable weather conditions and yields of the main staple crops are satisfactory. Fall wheat is of good quality and yielded well; spring grains are average crops. A satisfactory crop of hay has been stored. Buckwheat is making good growth and cutting of a heavy stand of corn has commenced. A normal yield of corn is indicated. Tomatoes are a good crop and deliveries to canneries are under way earlier than usual. Peaches and grapes are abundant, late apples are well sized and a good yield of high quality is in prospect. Beans have suffered some damage from rust, but an average crop of average weight and quality is about one-half completed and is around ten days later than usual.

Maritime Provinces

Cutting of grain is in progress, and while some deterioration is reported through drought, an average yield is indicated. Pastures in many sections are badly burnt. Roots have suffered a setback owing to heat and drought and the prospects for the potato crop are now reported to be less favorable. Digging of earlier varieties has commenced. Hot, dry weather has induced a heavy drop in apple orchards and the rising of the late varieties of fruit is being adversely affected; the yield, however, still promises to be at least equal to an average year. In New Brunswick blueberries were an average crop of good quality, but in Nova Scotia the yield was light.

Continued hot weather during August hastened the ripening of all crops. Hay operations have been completed, with the yield above average and of good quality. Threshing of grain is nearing completion, with yields 90 per cent of average. The corn crop is slightly below average. Tomatoes have improved, but the yield will be below average. Late potatoes indicate a heavy yield and other roots and vegetables are maturing satisfactorily. An excellent crop of hops is being picked in the lower Fraser Valley. Blackberries are plentiful. Apples are coloring well and picking of the McIntosh variety will commence shortly. Peaches and apricots have cleaned up well. All tree fruits are of good quality and the following yields are now indicated: Apples, prunes and plums, 100 per cent of average; peaches, 105 per cent, and pears 110 per cent. Recent rains have improved pastures and added to the supply of water for irrigation purposes.
